### **My Issue or Problem**

1. I have been a resident of [REDACTED] for 4 years. Prior to taking up residence I was assured that construction would be completed within a reasonable timeframe.
2. Construction of the village has been a stop/start affair for seven years.
3. Only 40/45% has been completed in this period.
4. Because of the shortfall of villa numbers, we elderly residents, who are no longer part of the workforce, are now facing additional costs in our later years to cover ever increasing expenses.

### **My Solution**

I feel it would be very beneficial if there was an Ombudsman, or someone of similar authority, appointed by the Victorian Parliamentary Inquiry into Retirement Housing.
