Subject: New Submission to Inquiry into Electronic Voting

Inquiry Name: Inquiry into Electronic Voting

Ms Tanjil Wright

SUBMISSION CONTENT:

--

i support electronic voting as it will enable a far greater reach to the community for voting.

As s disabled person, electronic voting will overcome mobility difficulties. Postal votes are available however they still require physical mailing which is not always possible.

I believe this to be of greater security. Currently we have many people handling the electoral roll and voters can often see the details listed. Further, as address info is often outdated, further steps in the process leave room for more error.

I believe an electronic roll would be more convenient, safer and far more accurate that current methods.
