### SUBMISSION

In my previous online submission when discussing why the VEC is not an appropriate, independent organisation I referred to the current electoral process managed by the VEC as being closer to a raffle due to the donkey vote. The VEC in their reports has not provided appropriate, independent advice to the government to address an issue that has been recognized and addressed by Tasmania and the ACT. Unfortunately there is insufficient time to extract the relevant sections regarding Donkey Votes from this past submission.

**Are you interested in appearing before the committee in person to talk about your submission?**

Yes

**Do you have any additional comments or suggestions?**

Unfortunately only had a short time before the close of the comment period.
