

PARLIAMENT OF VICTORIA

Environment, Natural Resources and Regional Development Committee

ENVIRONMENTAL WATER INQUIRY

Our new public inquiry is looking into the management, governance and use of **environmental water**. We'd like your feedback on issues such as:

its role in blackwater events

existing fees and charges for it

barriers to more efficient use of it

the impact of management tools like carryover

Public hearings will be held in Melbourne and regional Victoria.

A stylized landscape illustration at the bottom of the page. It features a dark blue body of water in the foreground, a line of trees in shades of green and brown in the middle ground, and purple and blue mountains in the background under a light blue sky.
