--

It is obvious that the Shire of South Gippsland does not have the funds to do "the job".

The superannuation for employees debacle is inhibiting growth.

Lack of funds for whatever reason provide a scene of uneven distribution across the Shire.

It is obvious there is an uneven distribution of the rates received from ratepayers.

The small towns are missing out, needing

- pathways
- lighting
- sealed roads
- support for funding applications.

This creates an atmosphere of envy, anger and suspicion.

The question is as "Why build Council headquarters for \$32 million?"
