Hello Natalie
Can I please attach two web URLs to my submission.

The first is about One Day school, a NZ program which provides a full day every week working with other children of the same ability level and age at various centres.
http://giftededucation.org.nz/onedayschool.html

The second is about a NZ Gifted Online program run on the Ultranet for children in rural communities. With the ultranet takeup here in Australia, this model showcases a real opportunity to empower Gifted children and provide them with the tools and learning they need, wherever they are.
