Canterbury Girls Secondary College

parent of student

We request that the school retains it's music funding that is currently in place. There is a threat that this funding be cancelled. The music program at this school ensures that all students feel like they are linked to the school and the other school students. The school music program is the glue that keeps this school together and ensures that all students feel accepted and are apart of the whole. This increases & encourages all students of any level to participate and not feel left out or alone. There is no need for bullying programs in this school as their is a fantastic music program that ensures fun, inclusiveness and acceptance of all types of students. Please continue with the music funding of Canterbury Girls Secondary College.

Thankyou
