[REDACTED]

I believe that Music is essential to overall child development. My daughter attends a state school in Vic and has had the benefit of the music program provided. She has been exposed to a new group of friends, learnt how to work as a team in the band just to mention a few of the benefits. I think that the quality of the music program at her school is very high, and although I pay towards her music experience I also understand that the state provides additional funds to ensure that the costs are affordable. She attends Canterbury Girls Secondary College
