RE: INQUIRY INTO DRUG LAW REFORM

Israeli drug laws and marijauna medicalindustry

It is my understanding that Victoria is importing medical canabbis fro Israel .

<http://newscontent.thaivisa.com/2017/03/06/r4.jpg>

There is legal money in the weed for both business and government if the punitive drug laws are changed

Opaites obtained by prescription or illegally on the evidence in Kings Cross , Sydney and overseas that are consumed in supervised injection rooms save lives and has other social benefits

Harm minimisation should be the primary consideration of public policy , not victimisation without social support or a viable rehab network
