To the Parliamentary Drug Law Reform Committee:

I recently sent this letter to the Premier regarding my dismay at the Government's opposition to a trial of a medically supervised injecting centre in North Richmond.

I want my views considered as part of the inquiry into Drug Law Reform in Victoria.

Sincerely

██████████

28 February 2017

Dear Premier

I am writing to implore you to reconsider your position on the introduction of a trial MSIC in North Richmond.

I voted Labor at the last State election, as I've always done, as I respect the Social Justice platform that Labor are known for.

I now cannot believe that you are so opposed to such a life-saving solution.

I'm well aware that your personal position on end of life treatment has changed due to your experience with your beloved father's dying & subsequent death.

Well my experience with my beloved 21-year-old son was that he died alone & unsupervised after injecting a dangerous drug.

Had he been in a MSIC he could have been saved, counselled & I believe rehabilitated.

But as we all know a corpse cannot be rehabilitated.

Last year 172 'human beings' in Victoria died from Heroin overdoses.

If 172 'human beings' died in a plane crash last year in Victoria, for example, it would have been considered a catastrophic tragedy.

A human life is a human life!

It is the sign of a civilised society and government to care for and protect its sick and vulnerable citizens.

Please help ALL Victorians to LIVE as well as to die with dignity.

Sincerely

██████████
