RE: INQUIRY INTO DRUG LAW REFORM

Caring for those who need it.

We are all part of our human life, everyone has to be respected and it is our duty to provide the facility required to improve the lot of those who have fallen by the wayside..I do not drink, smoke or take drugs but I am in uniform in the Salvation Army..and I see a lot of problems that we work with as you can imagine..the government has to step up and provide more services.
