Subject: Safe injecting room in Yarra

RE: INQUIRY INTO DRUG LAW REFORM

Safe injecting room in Yarra

Safe injecting rooms save peoples lives. They provide sanctuary to people in need and prevent fatal OD's. To not put them in a place high in fatal OD's means sanctioning more deaths simply because people do not understand their purpose and are moralistic. the current situation in which drug use results in criminal offences and jail time is not working. Follow better policies in other countries and decriminalise use and personal possession of drugs. less people will die unnecessarily.
