RE: INQUIRY INTO DRUG LAW REFORM

Re: Pill Testing

Hello,

It is plain to see that needles around Richmond and surrounding areas are an issue, people laying dead on our streets due to insufficient care within our state is an issue. We have a solution, which has worked around the world and in our own country. Let's put our money towards a brighter future for our fellow members, friends and children. Build a supervised injection centre for Richmond - we know it works. Nuff said -
