Subject: Drug reform submission

I am an Australian citizen from N.S.W. I believe that all drug's should be legal like Alcohol and aspirin. If Victoria was to lead Australia in decriminalising drug's it would recieve a large boost to it's economy and ALOT of respect from the citizen's Australia wide. This would end the drug war, and start a better understanding/control of the drug's, alleviating the abusive behaviour that causes so much trauma for many people.

Much respect,
Paxi
