Inquiry Name: Inquiry into VicRoads' Management of Country Roads

Mr Adam Mather

SUBMISSION CONTENT:

--

Vic roads have proven themselves to not care about roads in country regions of Victoria. We have had cases of motorcycle riders being thrown from their bikes because of potholes and at least 2 deaths directly contributed to a pothole. This same pothole was reported days earlier after a farmer was thrown from his bike after hitting it. Local councils, if funded to the same amount as Vic roads for the same area have more knowledge and have to be more responsible towards roads inside their borders. Vicroads have no one to be responsible to do not answer to any one for the condition of the roads. Local councils on the other hand are answerable their constituents.
