Ph. 03 5593 7100 www.corangamite.vic.gov.au
If you fail to act urgently, your legacy will be 28% of VicRoads arterial network in Corangamite Shire in ‘distressed’ condition by 2023 or 45% by 2040.

NOT JUST $55 MILLION TO BRING OUR ROADS UP TO STANDARD.

VICROADS NEEDS TO ADOPT A LONG TERM SOLUTION AND PROVIDE CONSISTENT ANNUAL BUDGET ALLOCATIONS TO MAINTAIN ITS 603 KM ROAD NETWORK IN CORANGAMITE SHIRE.

As part of Corangamite Shire’s responsibility managing 2,144 kilometres of local road network, our organisation is required to have an asset management plan.

This ensures we manage our local roads in a sustainable manner, with suitable budget allocations for timely renewals.

This approach is working.

The latest assessment of our local roads shows that nearly 99 per cent are in an ‘acceptable’ condition. To make a direct comparison: just over 1 per cent of our 2,144 kilometre road network is ‘poor or distressed’ while 18 per cent of the 603 kilometre VicRoads network in Corangamite Shire is ‘poor or distressed’.

We call on VicRoads to adopt a long term, consistent approach to maintaining its arterial road network in country Victoria. Show us a long term plan to fix your roads. Then show us the dollars to back up this plan.

Funding our roads should not be subject to political pressure or be promised during any election cycle.

We call on the State Government and all political parties to take a bipartisan approach to roads funding, allowing budget allocations to be driven by an asset management plan based on real data, rather than political pork barrelling in marginal electorates.
