Accident on the Black Spur

QUESTIONS have been raised about whether cyclists should be allowed on the Black Spur, as it can pose a serious danger to both themselves and others.

An incident occurred on the Black Spur on the morning of Thursday, October 19, between Fernshaw and the Dom Dom Saddle where two vehicles travelling in opposite directions collided.

The driver travelling towards Narbethong encountered a sudden traffic stoppage around a blind corner and needed to brake suddenly, swerving to avoid the hold-up ahead.

Part of the vehicle was on the right hand side of the road when it was hit by an oncoming vehicle. Fortunately no-one was injured in the accident.

Traffic hold up was believed to have been caused by a cyclist riding up the Spur toward Narbethong.

Witnesses said that traffic in the direction of Healesville was at a standstill and a cyclist was seen pedalling up the Spur, followed by other vehicles which had to cross to the incorrect side of the road to pass the cyclist.

A collision occurred on the Black Spur on the morning of Thursday, October 19.-KM
