Hi,

Can some of you people please come down to the South West of Victoria and drive around for a day? You could start your drive at Hamilton and drive through to Heywood and then into Portland. If you do this you will see what we voting people have to put up with and it's only a matter of time before a terrible accident happens down here. It is very embarrassing once you drive from Mt. Gambier towards Portland as the roads fall into ruin once you cross the border from S.A. to Victoria. Years ago it was the other way around. Our roads carry logging trucks daily and the damage they are causing our roads is shocking. Our Port of Portland is only going to get busier so our roads will become worse. We have to almost stop when traffic is coming towards us when we are out on the roads just to avoid losing a wheel or smashing axels when confronted with huge potholes that are all along our roads. We are going to vote for the parties who will fix our roads. But please if you don't believe us, come out for a drive. You'll wish you hadn't.

Ms. Angie Howson,
