VicRoads will not listen to local knowledge, insight & input. They conduct sham consultations, pretend to listen but come along with pre-determined outcomes they then tell us are the only answer. They pretend to know best (Newhaven roundabout.... short stretch of dual lanes on otherwise single lane approach roads, bridge etc.... an absolute nonsense on which they wanted to spend $25M for an 800m stretch. What a load of crap! VicRoads is a disgrace! Can’t speak badly enough about them ,the stress they have caused me as a landowner in the affected section, they brought the compulsory acquisition manager to the very first ‘consultation’ meet8n with us before ‘anything was d3cided’ Bullshit! I have no respect for VicRoads they obviously know nothing!!!!!!!
