Inquiry Name: Inquiry into VicRoads' Management of Country Roads

Simon Varley

SUBMISSION CONTENT:

--

As a country Vic resident who drives daily on the roads around Geelong, the Bellarine and surf coast i.am writing to reinforce the dire conditions of the roads in this region. Road repairs are continuously delayed and when finally completed are done poorly and do not last. Frequently pot holes reappear within days or weeks of the repair. Grass verges remain uncut obscuring junctions. Line markings are not repainted leading to confusion on junctions. Wire rope barriers seem to be proliferating to allegedly fix issues that don't actually exist where real safety issues go ignored for years at a time.

I strongly support the disestablishment of VicRoads and a replacement with a properly budgeted country roads authority staffed with experts on country road needs.

Thank you
