Inquiry Name: Inquiry into VicRoads' Management of Country Roads

Miss Amber Keane

SUBMISSION CONTENT:

--

Rural district roads are a disgrace. Too much money in the Moyne Shire is put into the maintenance of Portfairy rather than management of Victorian roads. Burn offs are never done prior to summer making it a dangerous fire hazard and difficult to see on coming traffic in rural intersections, this needs to be done before the fire restrictions hit. Money is seemingly not being spent on repairing of rural roads, pot holes are filled in with gravel making a driving hazard and rough surfaces are simply signed rather than torn up and fixed. It is a joke to have to travel on these roads with no compensation for damages to cars and no changes to the road conditions.
