Inquiry Name: Inquiry into VicRoads' Management of Country Roads

Mr Greg Anders
Director assets and Amenity
Golden Plains Shire

SUBMISSION CONTENT:

--

My Council (Golden Plains Shire) has been Advocating for many years to VicRoads and to local State Members of Parliament that VicRoads is clearly significantly under-funded in the annual budgets for rural arterial roads maintenance. In our municipality VicRoads is responsible for managing 225 kilometres of main roads and highways. Of particular concern to Council and the community is the appalling and very dangerous condition of a number of sections of the road that connects Bannockurn to Skipton. Hazardous road conditions signing has been permanently installed along sections of this arterial road for months/years.
