To whom it may concern

I am sending this email with concerns of the state of Hamilton Highway it is one of the scariest roads I have ever had to drive on, it looks like a patchwork quilt and It is just the worst when there is a lot of rain as all the water sits in the ruts from the trucks that also use the road. I have to use this poor excuse of a road most days to get to work and Especially when it has been raining I am just waiting for the day to come when a car coming the other way aqua plains and cleans me up how there has not been more accidents is beyond me but do you seriously have to wait until there are deaths before you rectify this patching up the patches is not working if I could avoid ever using this road I would

Regards
Michele Grundmann
