Feedback form

July 2017

Thank you for your interest in the Forrest Apollo Bay Road project.
Your feedback is important to us and will be used to develop the design.

1. Please enter your postcode __3236__

2. What is the nature of your use of these roads?
   - [ ] Driver
   - [x] Nearby resident
   - [ ] Cyclist
   - [ ] Horse rider
   - [x] Pedestrian
   - [ ] Freight driver
   - [ ] Nearby business trader
   - [ ] Other, please specify________________________________________

3. How often do you travel along this route?
   - [ ] Never
   - [ ] Rarely
   - [ ] Sometimes
   - [x] Often

4. What aspects of this road improvement project is important to you?
   (eg surface condition, vegetation management, signage, drainage, sight distance, debris on road, land slide prevention and overtaking)
   Intersection of Colac-Forrest Road, Station St and Grant St ____________________________________________
   A dangerous intersection with traffic from Birregurra and Colac and local. Need to slow down traffic. A roundabout might serve the purpose taking into consideration the needs of trucks. ____________________________________________

5. What is your feedback on the proposed overtaking opportunities?
   __Excellent design__________________________________________________________
   ____________________________________________
   ____________________________________________
   ____________________________________________
   ____________________________________________

Feedback Form Forrest Apollo Bay Road July17.docx
6. Do you find the road too narrow? At what locations would shoulder sealing improve safety?
   - Sealing need to be improved in so many spots
   - There are many dangerous bends past Forrest to Apollo Bay that need serious widening and lower speed signs.

7. In 2013, we introduced an 80km/h speed limit between Skenes Creek and Forrest to improve safety. Do you think any other changes to speed limits are needed between Skenes Creek and Birregurra?
   - Yes, All the >90 degrees bends has to have a speed limit of 40 km/h.

8. Any final comments?
   - Please do whatever to slow down traffic passing through Forrest. One idea would be a roundabout of decent design at the intersection of Turner Drive and Grant St.
