Inquiry Name: Inquiry into End of Life Choices

Mr. Malcolm & Rosemary Pryor

SUBMISSION CONTENT:

--

We would like to submit that euthanasia not be a part of any recommendations from your enquiry.

With so many people (the elderly in particular) already feeling like they're a burden on their families, even if a single one of them takes their own life via euthanasia that this government has legislated into being, that's murder in our opinion.

What we need is proper funding for the aged and world-class palliative care for those in pain.

To do any less is to neglect the most vulnerable members of our society.
