Enquiry into End of Life Choices
Parliament of Victoria.
Melbourne, Victoria

Dear Madam/Sir,

I am writing to you on behalf of all Jewish people to appeal to you to not allow into legislation any law that would legalize euthanasia or that would legalize a “choice to die” into Victoria.

The Seven Noahide Laws for all righteous humanity forbid murder, even if it is the will of the patient.

The Seven Noahide Laws were first given by G-D to Adam and then to Noach. They are the Laws from Heaven that are binding on all people. None of them may be infringed.

It is totally inappropriate to call assisted suicide “dignified” as some people do – euthanasia is simply immoral under any circumstances – whether it is called “assisted suicide”, “voluntary assisted dying” or “euthanasia” - they are all absolutely immoral and forbidden as it is murder.

It is our hope that you will legislate all laws according to G-D’s will and that you would also work to actually forbid euthanasia by any Federal, State and Territory Governments.

Thank you for allowing us this chance to express the will of the Creator in this submission and may G-D bless you.

Yours faithfully,

Dr. Eliana Freydel Miller (BDS)
