--

We are strongly OPPOSED to legalising euthanasia / assisted suicide.

We believe that promoting and giving more funding to palliative care is a better option for those who are seriously ill.

In countries like Belgium and the Netherlands where euthanasia has been legalised, many people are not given a choice. It is made for them, like children, people with mental illness and the elderly for convenience. Once legalised, where does it stop?

We urge the Committee to reject the legislation of euthanasia / assisted suicide.

Lyal and Judie Roberts
