Dear Mr. Blunt,
I received a letter from Danielle Green, our State Member for Yan Yean appealing for submissions to be made re the above areas.

Firstly, the roads are a disgrace and with all the new housing estates being built, a 4 lane highway needs to go as far as Whittlesea. With all the cars and trucks, the roads cannot take it and though repairs are being done, they cannot keep up with the demands.

Secondly, the public transport system. There is only a bus, just the one bus line to and from Whittlesea. The nearest rail line will eventually be South Morang but again, this is ridiculous. What about Mernda and Whittlesea?

Thirdly, schools. There is a tremendous need for a public secondary college in Doreen. There are private schools such as Acacia College in Mernda, Plenty Valley Christian College in Doreen but these are expensive and it's a public secondary college that is needed.

The ever increasing population growth here is incredible. It's about time someone checked on the number of new housing estates and the infrastructure that is sadly lacking.

Yours faithfully,

V. Rowe
