

**Note:**

1. COVID-19 data are extracted from the Public Health Event Surveillance System (PHESS) and are current as of midnight 30th November 2020. All data undergo a p

2. Definition of healthcare workers (HCWs):

Healthcare workers are people whose work involves providing clinical care to patients or clients. This may include nurses, personal care assistants, allied health, doc

3. Inclusions and exclusions:

HCWs in aged care settings have not been included on this spreadsheet but can be found on the Aged Care spreadsheet (the two datasets are mutually exclusive). A

rocess of review and correction and are subject to change. This dataset will be updated monthly on the Department of Health and Human Services (DHHS) Website.

ctors, etc. It does not include non-clinical ancillary staff such as cleaners, food handlers and administrators.

A small number of cases have worked in both aged care and other healthcare settings; they are counted in the Aged Care dataset.

e. The data captured herein do not necessarily reflect all information available to DHHS at the time to support case and outbreak management.
