### YOUR SUBMISSION

#### Submission:

I am disgusted in the response to this covid "pandemic".

I don't understand how Victoria has 12 active cases and is still in lockdown. I am very aware that this was never about health at all. Mental health counts as health, but apparently not according to the government. Stripping people of their rights has caused suicides to SKY ROCKET. Congratulations the government has created a mental health pandemic. No amount of phone calls with a therapist is going to solve this crisis the Victorian and Australia government has created. People are starving, going/are broke, lost their homes, committing suicide while the government officials sit on their high horse with a healthy salary and tell everyone that everything will be okay. How heartless and privileged that is. Happy 7month anniversary to "two weeks to flatten the curve". You have no idea what's going on and quite frankly I don't think the government cares. How does the government give daniel Andrews a pay raise for doing absolutely nothing for us Victorians struggling but cut Victorians Centrelink payments. You have not opened up the state how are you cutting payments? Bills are still ongoing they haven't stopped. Families need to be fed. The government simply doesn't care because if the government cared one of you would do something about it a long time ago. This is the ultimate betrayal. Absolutely sad.
