YOUR SUBMISSION

Submission:

I am appalled at the religious discrimination regarding the treatment of Churches and places of worship compared to pubs, cafes and restaurants: for numbers allowed in attendance in stage 3. 60% of Victorians associate with a religion and in hard times our faith is all that keeps us going. In all past times of pestilence and plagues Churches were supported to be open and more prayer services and more people praying was encouraged. When times get tough we all should turn to God. Without the ability to gather and support each other in prayer, many are becoming depressed, hopeless and suicidal. This is depriving us of our religious, democratic and human freedoms. We used to be the land of the free. Melbourne was once one of the best places in the world to live. This is no longer the case. I myself am considering if I should flee to live somewhere else as I feel I am being oppressed by a dictatorship right now.

The governments complete disregard for science regarding the need for lock down and also the confinement to a 5km radius of home is absurd. There is no science or data supporting this and even the WHO is now backflipping on most of what it has already proclaimed and now says lockdowns are not the gold standard of response for Covid. They even go as far to say that lockdowns should not be used for Covid control. Simply look at NSW and how the Covid response is being handled and compare it to Victoria. We no longer in Victoria have a government that supports its people, but one that is hell bent on being communistic dictators. A government is supposed to act and represent the common good of all it proclaims to lead in service. I no longer see this in Mr Andrews governance nor in his handling of the Covid problem. He appears to be power hungry and intent on suppressing our rights and destroying the lives of all Victorians without any medical scientific basis for his actions. He should be fired and someone else take his place who is willing to lead Victorians to a future that supports the physical, mental, financial and spiritual health of all. We all deserve better.

Fair dinkum what Daniel Andrews is doing is unAustralian and he is going to ruin this once great State forever. I fear his close relationship with Mr Xi Jinping is causing him to make decisions that are not in the national interest of Victorians nor of this great country. Surely his deals and relationship with China poses a threat to national security. Why on earth he is allowed to go against the advice and direction of the Prime Minister with the belt and road project, I will never understand.

Do you have any additional comments or suggestions?:

Open the Churches

Bring back businesses

Start opening up Victoria before its destroyed beyond salvation

Get a new chief medical officer

Get a new Premier

Start support and representing the people as true governments are employed to do.

Hold the politicians and especially Mr Andrews to account for his poor management of the whole debacle.
