YOUR SUBMISSION

Submission:

I just wished to indicate that the cost to the Victorian community is far greater than any fiscal cost. The lock down isolation is creating anxieties, psychological problems and killing business all at the same time. I am in isolation in a small town but almost on a daily basis I encounter one or more of these three problems. As a microcosm of the broader community I can see that these factors are taking a greater toll then Covid19

Do you have any additional comments or suggestions?:

Listen to the community not to the Government of the day
