To Whom It May Concern,

Premier Daniel Andrews and the Victorian Government have to be investigated thoroughly and diligently over the decisions re the hotel quarantine and lockdown rules which have had disastrous impact on the Victorian population. 800 deaths, millions unemployed, Businesses decimated, and mental health of young and old exacerbated. Over the last few months we have witnessed a corrupt Government refusing to comply with the law and Human Rights., committing perjury under oath and instigating fear with their draconian laws on everyday law abiding citizens. Thousands of Professionals and everyday people have voiced their concerns to no avail. The number of concerned voices should be triggering questions. Truth and Trust is the ultimate pinnacle for a Government. These attributes have been eroded away by this Government and needs immediate rectification. Government is to represent the people not to push their own agenda.
