YOUR SUBMISSION

Submission:

I feel I was treated as a child by the government, yet I raised 3 children on my own, dealing with Gastro highly infectious! My training in hairdressing covered bio-hazards. In mentioning bio-hazards there were no bins provided for masks! Directions were flip flopping and made no sense ...eg: masks we were first told they don't help , then we were mandated to wear them?! The banning of the drug HCQ was criminal absolutely criminal as many countries used it with much success!!! I think even the advice coming from WHO was also inconsistent! I feel we should have protected the elderly and counter able medically people and allow people to get on with life , masks as an optional. I feel the over reaction heavy handed ness of the police only created fear and mistrust of the police! No PROTESTING ? From what I understand there were hand picked experts used without including other professional medical people to get a balanced outcome. The handling of the hotel situation was an absolute nightmare and I believe ALL involved guards and Dans team should be accountable ALL OF THEM ! 'Loss of memory ?

Lockdowns were criminal and too long! Encourage people to dob on others is wrong ! Social media was shutting down our freedom of speech with only added to people frustration. Dan Andrews needed to be reminded he serve the people and I believe after the hotel situation should have stood down while the inquiry was looking into the situation. Our system needs to change ! If majority of people are not happy with the leader we the people deserve better than to begrudgingly listen to a man we have lost trust in to lead. Of the subject but I do hope that what Mr Morrison said about scrapping 'The Belt and Road Deal' happens as I feel this bad for our National Security PLUS it was never put before the general public to vote on, which is how a democracy should be! I feel the handling of the COVID-19 was badly managed. I hope I've covered everything, thank you for your time in this matter

Sincerely Wendy

Do you have any additional comments or suggestions?:

I believe if we ever face this situation in the future there's more TRUST IN THE PEOPLE !
