### YOUR SUBMISSION

#### Submission:

Dan has demonstrated, beyond any doubt, that he does not care about anything other than 'case numbers' in a road map – a random set of numbers that his own scientists and advisors publicly do not support. Like a chronic gambling addict who cannot see reason, he will destroy this entire state beyond anything ever seen, chasing made-up standards not used anywhere else in the world.

He has demonstrated a number of times that he can't be trusted! Enough is enough! If this continues we will be trapped in a never-ending cycles of goals that cannot be achieved, driven by a man who is too arrogant to simply change his plan.

There has already been an unsuccessful spill attempt against him, so we the public know that even his own party do not support what he is doing.

**ACTION** must be taken **NOW!** Otherwise we will be allowing the destruction of Victoria on a level we may never fully recover from. Think about all the lives lost ( not due to covid), all the broken families, all the businesses lost, all those **STRUGGLING** every day! It doesn't have to be this way, if someone doesn't do something there will be blood on the governments hands.

You can see our neighbour states being held to entirely different standards. Why? NSW are no where near as restricted as Victoria and case numbers are virtually the same, so why?? There is a better way to do this; what is happening is not necessary and completely unwarranted. It's nothing but a power grab.

We are not necessarily lobbying for a double dissolution, but for Dan and his Cabinet to be forced to resign immediately.

Someone must take responsibility to save this state from what is happening.

Someone must step in and save our state from what this government is doing. **FAMILIES** are struggling, children are struggling ,this could be the last chance to save someone struggling mentally, **VICTORIA** needs this to stop! **DO SOMETHING NOW! PLEASE, ENOUGH IS ENOUGH!** The cure should **NOT BE WORSE** than the disease!
