

## **Conclusion**

COVID-19 has changed the legal landscape and ways for legal services to be provided to clients, which are all positive agents of change. In ensuring access to justice, it is essential that the Victorian Government take steps to ensure the experiences of victims of family violence are recorded, explored and steps taken in the prevention sphere.

We thank the Victorian Parliament for the opportunity to contribute to this important inquiry and can provide the Committee with further information or attendance as requested.
