YOUR SUBMISSION

Submission:

With all due respect, investigating the situation "from the top" - i.e. asking highest public officials as to who was responsible for X, Y, Z.- was always destined to fade into a murk of so-called 'shared responsibility'.

The alternative? Start at the bottom and work your way up -

1. "What is the name of a person who 'sub-contracted' you and / or who instructed you about your Covid-12 duties?"

2. "What is the name of a person who 'contracted' you and / or instructed you about your Covid-12 duties?"

Inevitably, two such elementary questions should lead higher and higher - revealing a chain of names that must culminate with the very names you're looking for.

Yours Sincerely,

Mark Gendala
