

The response to the COVID-19 pandemic has been pathetic. The response is soft. It is weak. It is WEAK AND SOFT. This is a pandemic. We must treat a pandemic as a pandemic, because it is a pandemic pandemic pandemic pandemic and pandemic! Pandemics **don't play by any rules**, so neither can we.

Look at these people in the picture below! Destroying the world and **everything** we hold dear. It will be the end of the Earth, it will be the end of life on Earth, it will be the end of human life on Earth. Do you want it to be the end of human life on Earth????? **GET OFF YOUR HIGH HORSE!!!**
AAARRRRGGGGGHHHHHH!!!

Do we want EVERYONE TO DIE?? If we don't all do the *right thing*, we're *all* going to DIE!! I don't want to die, do you? **DO YOU WANT TO DIE?** If you don't do *EXACTLY WHAT I TELL YOU*, you will die. I've heard of people dying because of the lockdowns and to them I say we must do whatever it takes. Actually if they're dead they wouldn't be able to hear me. So if they can hear me they're not dead and just making it up? The millions of Australians who say that lockdowns are harming them are *just making it up* aren't they?? **Nothing else matters!?! As the press *blindly follows*** the narrative – what “hidden harms”, it's all just *made up!*!

We must detain people in their homes. For as long as it takes. As long!! Not a month or 2 months or 3, but **LONG!** VERY LONG! Being homebound will not cost anyone anything let alone their *good health and wellbeing*. Permanently keeping people in their homes under hypothetically indefinite multiple quarantines is what *true resilience* looks like. So **JUST DO IT!** There will be time for thinking about it later!! But **do it NOW!** How can people just be sooooo **STUPID!**!!

We must ban all forms of activity indiscriminately. Immediately! How many times do I have to tell people! Don't eat! Don't breathe. **DON'T TOUCH ANYTHING!**!! How many times do we need to tell you! And for god sake I don't care how many times

you've washed your hands in the last 5 minutes. **WASH YOUR HANDS!!!** What do people not understand about not touching your face, then I see people touching their own hands WHY DO THEY DO IT?!?!? We really do need a hand washing police task force if we cannot conclusively verify that people are washing their hands *enough*. I mean, why won't people do what they are told – it is like being in kindergarten!!!!!!

And I don't care if you have "hayfever" for half the year – GET TESTED!! If you have any symptoms GET TESTED. Sniffle, GET TESTED. Sore throat GET TESTED. Itchy eyes? Why the question mark GET TESTED!! Lazy eye GET TESTED. Ingrown toenail, what did I say GET TESTED!!! Itchy stomach??? Oh you say you got tested a day or 2 ago came back clear and feel well I DON'T CARE!!! Are you ABSOLUTELY CERTAIN you are well? Well ARE YOU?? Why are you still reading this GET TESTED!

Recently, I have heard of such *selfishness*! People going fishing by themselves! People sitting alone on park benches eating a kebab. People even playing golf! How dare they. They shouldn't just have been fined, they should have been put in jail and spat at by an *outrage mob*! Perhaps we should even throw rocks at them, or run them off the road. Such behaviour is utterly selfish, and disgusting *thoughtless* behaviour. Then we had people playing pokémon by themselves, the absolute gall of it! And then we had a guy saying he could mow lawns without any human interaction. But he just doesn't realise it is **NOT WORTH THE RISK!** We have to punish people for such heinous acts **BEFORE IT IS TOO LATE!** Good lord if anyone broke the Melbourne curfew outdoors 🤬🤬🤬. If they say that viruses spread more between the specific hours of 8pm and 5am **WHY DON'T PEOPLE LISTEN!!!** Why do people think this is a conspiracy!! Or a power grab!! Why are the public *soooooo gullible*!!! Even if there are over 5 million million million kilograms of fresh air on earth, and even if MR SCIENTIST says that being outdoors enormously lowers transmission, and even if viruses spread less in summer as people are outdoors more often, why are people **SO SELFISH TO RISK IT!!** They **JUST DON'T GET IT!!!!** 🤬🤬🤬🤬🤬 These *people* are such filthy DISGUSTING DOGS!!!!

Did you know that apparently, people even snap off pieces of fresh ginger at the supermarket – well that obviously needs to be banned! Why are authorities so "slow" to *make up* these *new rules* are they **NOT THINKING ABOUT ANY OF THE CONSEQUENCES?????** Why do people and authorities *refuse* to do the *right thing*!

Just today I saw someone walk past a police officer and not cover his face to sneeze. **LOCK HIM UP.** Yet the police officer just stood there. It is all his fault!! Mr scientist says sneezing isn't a symptom of corona—virus but is it really worth *ALL this* risk? Then the other day I saw this guy put a used tissue in his pocket for a second before taking it back out and putting it in the bin. What about IMMEDIATELY does he not understand!! And then he had the audacity to cough into his upper arm not his elbow WHAT THE HELL IS WRONG WITH PEOPLE!

Even medical professionals! A Canberra doctor was apparently working in Victoria. *WHAT THE HELL WAS HE DOING THERE IN THE FIRST PLACE???* Then he is so *selfish* as to want to return home to Canberra directly via motor car through NSW so he could take his own possessions with him what *disgusting* behaviour. He should indeed have been made to wait at the border for days as a punishment! And then if the

authorities told him to return to Melbourne for everyone's *safety* **WHY DON'T PEOPLE LISTEN TO WHAT THEY ARE TOLD??** The advice has been to **stay home** for months so why wasn't he already at home!?!? He is a criminal and should be locked up. And spat at. And run off the road if he dare entered NSW. How dare he *put everyone's lives at risk!!!* I mean, how can people **not realise that this is serious!!!** The gall 🤔🤔🤔🤔🤔

And how many other *border infractions* can we tolerate!! There was Albury (NSW) man Greg Mosbey ("Greg Mosbey" – who wants to hear from a "Greg Mosbey") turned away on the way to Wagga (NSW) hospital with a heart attack, resulting in not being admitted to hospital for 7 hours. He should have been denied admission to hospital for an additional 24 hours for *not doing the right thing*. How did he **NOT KNOW!!!!!!** where he was!! I mean if he was having a heart attack it's not like he was *DOING ANYTHING!!* Or *what the rules are??!!* It couldn't *be clearer!!* **HOW MANY OTHER PEOPLE COULD DIE** if we keep allowing this **STUPIDITY!!!!!!** Who knows how many other **CASES OF SUCH CLEAR STUPIDITY** there are!!!!

Then there have been such *AWFUL CASES* in Queensland!! A kid who needed emergency medical care but the mother didn't have a permit. Well **DIDN'T SHE KNOW THE RULES??** It's just **ALL COMMON SENSE** isn't it?? And then after open heart surgery for a baby their family wanted to skive off and *stay home* instead of doing hotel quarantine! The *selfishness* and the *risk* of it all! Apparently there were 5 specialist doctors who recommended home quarantine but were any of them specialists in home quarantining?? *What would they know about PUBLIC health!!* *What would they know about KEEPING PEOPLE SAFE!!!!* Then there were other cases of people fined for not being at home when in hotel quarantine – **WHY WERE THEY NOT AT HOME??** Then there was another one where an unborn baby died from the so called border confusion. After waiting 16 hours the pregnant mother flew to Sydney. **WHY THE HELL** did she wait for 16 hours?? Didn't she know the rules? Was she trying to "cheat the *system*"?? Was she a queue jumper?? What is **WRONG WITH PEOPLE!!** How many more people have to die before **BABIES and their families - GET IT????**

Now that we mention it, this is an opportunity to eradicate all viruses known to mankind. *Did you know* that other viruses kill people too???? Colds, flu and pneumonia? Tens of thousands of **OZZIES**? Over many years????? It is unacceptable!! It is **entirely avoidable!!!!!!** We can act without any cost, consequence or *thought*. And we must act to stop these lives being lost. We must continue to detain people in their homes until we can be **ABSOLLLUTELY CERTAIN** that every virus ever to exist has been eradicated. Are you certain **MR SCIENCE PROFESSOR MAN??** And if anyone ever leaves their home for **ANY REASON**, they should be fined and jailed. And run off the road. And possibly spat at. But only by people who have government issued permits to leave their home!! Everyone else should be hold up at home or spat at.

Did you know that bats allow for all sorts of viruses? They are the cause and it is their fault?? We **OBVIOUSLY** *need* to eradicate bats. What good have they ever done for us?? By eradicating bats, we can remove the possibility of these future **EXTREMELY BAD** viruses **REALLY BAD**. Doesn't **HUMAN LIFE COME FIRST** anymore?????? Then we need to deal with other animals. I mean, I know dogs are cute but we need to

be able to test them. If other animals cannot be tested scientifically for **EVERY VIRUS**, then they must be shot. If there is not enough equipment to test them, they must be shot. We must choose *not to compromise human life*, and thus unfortunately the animals must be shot!!! It is a *necessary sacrifice* like *so many of the others*. Even if they have viruses which do no harm to humans, how do we *really know* they don't do harm???? Again it is not worth the *risk*. To be safe we need to dig large graves and fill them with the animal carcasses but only every 3 days. Did you know that the corona-virus causing COVID-19 can live for up to 3 days on surfaces? **THREE DAYS**? And we should never ever again open our borders again until we are certain every country in the world has done the same. ARE YOU CERTAIN??

To conclude, we must take the approach of Lieutenant Briggs who once said,
"....."Anyone who threatens the *security* of the people will be executed."....."
"....."People are guilty until pro.....god damn it you know what I mean."....."
It will be TREMENDOUS!
