Appendix 1: Health and safety advice for on-site schooling in the context of coronavirus (COVID-19) .............................................................. 14
FOR ALL VICTORIAN GOVERNMENT SCHOOLS

School operations for the remainder of Term 3

The Victorian Government has made a series of significant announcements, in line with advice from the Chief Health Officer about restrictions to help slow the spread of coronavirus (COVID-19):

• Since Sunday 2 August, [Stage 4 restrictions](#) are in place across metropolitan Melbourne.
• Since Wednesday 5 August, [Stage 3 restrictions](#) are in place throughout regional Victoria, including Mitchell Shire.

Remote and flexible learning in place across Victoria

Since 6 August All Victorian government schools have transitioned to remote and flexible learning for the remainder of Term 3, with the exception of specialist schools in regional Victoria.

Any child enrolled in a specialist school in regional Victoria will be able to continue to attend. Any parent of a child enrolled in a specialist school in regional Victoria who wishes to keep their child at home can do so, and, where possible, the school can provide learning materials and activities for the child to undertake at home.

On-site supervision is available at all schools in limited circumstances as outlined below.

On-site supervision

Metropolitan Melbourne

On-site supervision is available for students in the following categories, based on revised criteria:

• children whose parents and carers are permitted workers who cannot work from home and where no other arrangements can be made.
  o Where there are two parents/ carers, both must be permitted workers, working outside the home in order for their children to be eligible for on-site provision.
  o For single parents/ carers, the permitted worker must be working outside the home in order for their children to be eligible for on-site provision.

• vulnerable children, including:
  o children in out-of-home care
  o children deemed vulnerable by a government agency, funded family or family violence service, and is assessed as requiring education and care outside the family home;
  o children identified by a school as vulnerable, (including via referral from a government agency, or funded family or family violence service, homeless or youth justice service or mental health or other health service);
  o children with a disability and the family is experiencing severe stress.

Severe family stress

As per above, under provisions for vulnerable children, principals will contact parents/carers to discuss appropriate arrangements where the family is experiencing severe stress due to the functional impact of the child’s disability on providing care and supervision for remote and flexible learning (including via referral from external agency, mental health or other health service).

In these instances, school/s will take a collaborative family-centred approach to determine appropriate on-site attendance arrangements for children with disability.

This will seek to address the severe stress families are experiencing and be consistent with the intent that on-site supervision is to be provided in limited circumstances only to limit the movement of people across metropolitan Melbourne as far as possible as part of efforts to slow the spread of coronavirus (COVID-19).

Regional Victoria

On-site supervision is available for students in the following categories, based on revised criteria:

• children whose parents and carers cannot work from home and where no other arrangements can be made
  o Where there are two parents/ carers, both must be working outside the home for their children to be eligible for on-site provision.
  o Single parents/ carers must be working outside the home for their children to be eligible for on-site provision.
• vulnerable children, including:
  o children in out-of-home care
  o children deemed vulnerable by a government agency, funded family or family violence service, and is assessed as requiring education and care outside the family home; or
  o children identified by a school as vulnerable, (including via referral from a government agency, or funded family or family violence service, homeless or youth justice service or mental health or other health service); or
  o any child with a disability.

Requirements for on-site supervision

All schools, except specialist schools in regional Victoria

• Schools should provide on-site attendance forms to families requiring on-site supervision so they can indicate the days/ part-days that will be required, to enable schools to plan for adequate resourcing. Forms for Metropolitan Melbourne schools are available here. Forms for Regional Victoria schools are available here.
• The Students at Risk Planning Tool can assist schools to identify students who may be vulnerable and require supports to maintain engagement and connection with education.
• The learning program delivered on-site will be the same as the learning program delivered to students undertaking remote learning.
• Students learning on-site will be supervised by school staff on-site but follow the teaching and learning program provided by their classroom teacher.
• Students attending on-site must be supervised at all times by staff with either current Victorian Institute of Teaching (VIT) registration or a Working with Children Check. Education Support staff can provide direct support to and supervision of students, provided they have access to support from a VIT-registered teacher.
• The guide to absence coding is available on the Promote and Manage Student Attendance page.

Staffing arrangements

Specialist schools in rural and regional Victoria

Principals, teachers and staff will be required to attend for duty at their school in accordance with normal arrangements, making necessary adjustments to support physical distancing between adults.

This does not preclude school-based arrangements to permit staff to work from home where this is compatible with the circumstances of any individual school. This includes arrangements such as merged classes, where this can be managed within the health guidelines.

This decision must be made by a principal using the consultative arrangements agreed at the school. The principal must be assured that:

• meeting such a request will not compromise their capacity to provide on-site learning for as many students as may attend on any given school day
• it is reasonably practicable for the teacher or teachers to work from home (including the use of a reliable, safe and secure digital environment).

In implementing such arrangements, the principal, teachers and staff have a joint and shared responsibility, through local consultative arrangements, to ensure that to the fullest extent possible a fair and equitable share of the workload involved in supporting on-site learning is maintained, noting that the principal retains full authority for the management of the school workforce.

These arrangements can be extended to members of the principal class providing the above conditions are met, in particular for the school to be managed at an appropriate level of seniority for a full school day.

All schools (except specialist schools in rural and regional Victoria)

It continues to be the principal’s responsibility to make the school-based decisions required to deliver Government education objectives in accordance with the Victorian Government Schools Agreement 2017.

Where teachers and support staff are not required on-site, they must work from home.

Where possible, school leadership should be represented on-site. Principals will need to ensure that there are sufficient staff on-site to run the school’s teaching and learning programs.

Principals should consult their staff to identify those willing and able to work on-site, either in an ongoing or rostered basis. They should ensure staff are consulted on, and have input into, the ways work may be organised and allocated.
Staff work hours at home should be consistent with the attendance arrangements already in place at each school, and determined in accordance with the school’s local consultative arrangements.

Schools should communicate these hours of work to parents/carers and indicate that teachers and support staff are not required and will not necessarily be available to students or families/carers outside these hours.

Staff working from home, including teachers and education support staff, will not visit or work in students’ homes.

Working alone or in isolation from others presents hazards of which employees should be made aware, including impacts on mental wellbeing. Principals and school staff are encouraged to develop a program of regular contact with staff who are working from home.

Departmental policy and guidelines can be found on HRWeb.

On site staffing requirements may vary between schools and may change over time as attendance varies.

If it is necessary to identify which staff are to work on-site either for a specified day or days or as part of a roster to meet the above requirements, the school should follow procedures determined at the school using the school’s consultative procedures or in the absence of local arrangements the following process should be used:

a. The principal will notify all staff they are seeking volunteers to be available to work on-site for a specified day or days or as part of a roster.

b. If there are insufficient volunteers, Casual Relief Teachers (CRTs) should be engaged. If insufficient CRTs are available, the principal should approach their Senior Education Improvement Leader (SEIL) to establish if any staff from other schools in the network are available.

c. Where it has been identified through (a) and (b) above, that there are insufficient staff to meet the needs of the school, the principal will provide an opportunity for the employees to provide reasons why they should not be considered for work on-site for a specified day or days or as part of a roster.

d. The principal will take into account the overall work needs of the school and the submissions from individual employees in accordance with (c) above in determining which staff will be required to work on-site for a specified day or days or as part of a roster.

e. The principal will make every effort to ensure that an employee is not identified to work on-site where there are compelling personal compassionate grounds pertaining to that employee.

Advice on further staffing matters – all schools

School staff access to on-site supervision and childcare

Metropolitan Melbourne

- staff working on-site to support a school’s supervision program are able to have their children attend their usual school for those days they are working on-site, where they are single parents/carers and where both parents are permitted workers who must work on-site and cannot work from home and no other arrangements can be made.
- school staff working on-site and working from home have access to childcare as permitted workers, where no other arrangements can be made.

Regional Victoria

- staff working on-site to support a school’s supervision program are able to have their children attend their usual school for those days they are working on-site, where they are single parents/carers and where both parents cannot work from home and no other arrangements can be made.
- childcare and kindergarten remain open as usual in regional Victoria.
- Further advice is available on the DHHS website.

Casual relief teachers and pre-service teacher placements

- Schools may need to engage CRT staff to cover staff absences and ensure sufficient staffing on-site to meet requirements. If principals are concerned about cost pressures or a forecast deficit budget position, please contact the School Financial Management Support Unit for support or advice: schools.finance.support@education.vic.gov.au or (03)7022 2222
- Schools in stage 3 restricted areas should continue to receive and accept applications for pre-service placements to ensure pre-service teachers are able to meet graduation requirements. Pre-service teachers can attend schools on-site. For more information, visit the pre-service teacher placements during coronavirus (COVID-19) web page. An example of the support that a pre-service teacher can provide during remote and flexible learning is available here: How final year pre-service teachers can help you.
• Pre-service teachers may not attend on-site at schools under Stage 4 restrictions in Metropolitan Melbourne. The amended permitted worker directions no longer allows for pre-service placements on-site in Stage 4 restricted areas, current on-site placements need to cease in line with the new directions. Schools in Stage 4 areas are encouraged to continue placements where a pre-service teachers can work remotely.

Staff who may be medically vulnerable

• Advice from the Victorian Chief Health Officer is that, as with other members of the community, teachers and other school staff may be at greater risk of more serious illness if they contract coronavirus (COVID-19) if they are:
  o aged 70 years and older
  o aged 65 years and older and with chronic medical conditions.
  o of any age and have a compromised immune system
  o Aboriginal and Torres Strait Islander and are aged over 50 years and with one or more chronic medical conditions.

• Staff who are medically vulnerable should seek advice from their medical practitioner in relation to their on-site attendance. Where the employee is unable to work either on-site or remotely, they can access personal leave by providing a medical certificate.

• Similarly, staff who are living with or caring for elderly or chronically ill relatives should seek advice from the medical practitioner of the person for whom they are caring to determine if they can attend on-site or should work remotely. They should provide a medical certificate if they are seeking to access personal leave.

• The Medical Advisory Service is a specialised support service for principals to help them fulfil their responsibilities in relation to employee health.

Health Wellbeing and Inclusion Workforces - Service Provision in Schools

• Regional Health, Wellbeing and Inclusion Workforces (HWIW) will continue to provide support to schools, students and parents/carers. These comprise:
  o Student Support Services (SSS)
  o Primary and Secondary School Nurses
  o Visiting Teachers
  o Koorie Engagement Support Officers (KESOs)
  o other region or area-based staff whose key role is to provide support to schools.

Reimbursement of Casual Relief Teachers (CRTs) travel and accommodation costs

• To increase the pool of available CRTs in regional schools, the Department of Education and Training (the Department) is trialling a process of reimbursing regional schools for CRT costs of travel/mileage and accommodation. This trial will run initially from 3 August 2020 to 18 September 2020.

• Schools will be responsible for the payment of the CRT’s salary. This arrangement will apply to schools designated by the Department as ‘regional’. A list of eligible schools can be found here. It will not apply to schools within the metropolitan Melbourne area.

• Claims for reimbursement of travel/mileage and accommodation costs may be made by schools that engage CRTs either via an agency or as school council employees. The Department has advised the agencies of the trial period, the eligible schools and the reimbursement criteria. Where the reimbursement criteria have been met, the schools are to lodge the claims via the Schools Targeted Finding Governance (STFG) Portal.

• More information about the reimbursement process and criteria can be found here.

Working from Home Allowance

• Employees will receive the working from home allowance.

• The allowance is $20 per week for home office consumables and utilities. This $20 per week will be paid on a pro-rata basis based on an employee’s time fraction.

• Employees on any type of leave (paid or unpaid) will not qualify for the payment, until their leave ends and they commence or resume working remotely.

and onsite to ensure that services that are required onsite can still be delivered based on operational requirements and the service that needs to be provided.

• Schools will also continue to have access to a dedicated Regional Health and Wellbeing Key Contact (HWKC) for the rest of the school year.

For further advice, see the Coronavirus (COVID-19) — Health, Wellbeing and Inclusion Workforces page in the Policy and Advisory Library.
1. Home provision

- The parent or carer is responsible for students’ general safety at home or elsewhere.
- Students and parents/families should be given clear information about how and when they will receive learning materials and feedback.
- Schools will create and communicate a schedule or calendar that shows what is expected of students in relation to the completion of learning tasks.
- For students with a disability, students in out-of-home care and Koorie students, schools and the parents/carer should continue to work together via the Student Support Group (maintaining a current Individual Education Plan (IEP)) to identify and plan responses for areas of need.

Principals and school staff must:
- identify risks that are reasonably foreseeable for students who are learning at home
- take reasonable steps that are in the school’s control to prevent reasonably foreseeable harm to students.

- For more information, see fact sheet: Child Safety, Reportable Conduct and Duty of Care in Remote Online Learning.

2. Home and on-site learning programs

- The learning program delivered on-site will be the same as the learning program delivered to students undertaking remote learning.
- The following are the daily minimum guidelines schools are expected to meet for students in Prep to Year 10.
  - For students in Prep to Year 2, schools will provide learning programs that include the following:
    - literacy activities that take a total of about 45-60 minutes
    - numeracy activities of about 30-45 minutes
    - additional learning areas, play-based learning and physical activity of about 30-45 minutes.
  - For students in Years 3 to 6 and Years 7 to 10, schools will provide learning programs allocated as follows:
    - Literacy: 45-60 minutes
    - Numeracy: 30-45 minutes
    - Physical activities: 30 minutes
    - Additional curriculum areas: 90 minutes

- Where appropriate, for students with disability and students in specialist schools who may be ungraded, teachers will be guided by age-equivalent daily minimum guidelines, with consideration of the student’s stage of learning and individual education plan.

- English language schools and English language centres, Tech schools, KIOSC and Maths and Science Specialist Centres should offer remote learning opportunities.

- Where international students are living in a homestay arrangement, the school may need to provide additional welfare support to those students, given their particular vulnerabilities living apart from their family, in a foreign country.

3. Access to teaching and learning resources for students at home

- For students who do not have access to digital technologies at home, schools will loan existing devices, including those previously provided by the Department.
- Where additional devices are required, these will be provided by the Department where schools have used a range of funding sources, including equity funding and CSE funding, to purchase equipment to be loaned to students free of charge.

- The Department will also provide network access to the extent possible for students who may not be able to connect at home.

- Schools are also able to provide hard copies of learning resources in the event of an internet outage or in cases where it is not possible for students to have any digital access.

- Schools must follow e-safety policies and procedures.
4. Health and safety measures

• This guidance applies to schools in the context of on-site learning and supervision.

• The Safety Management Plan for COVID-19 (COVIDSafe Plan) applies to all schools, and outlines the key OHS risks and links to the latest guidance. In conjunction with this Operations Guide, it sets out the approach for managing safety risks in schools in accordance with the minimum requirements for COVIDSafe Plans.

• The Department’s OHS Advisory Service or local OHS regional officer can assist in tailoring the plan to individual school needs. Schools should use their OHS consultation mechanisms to implement the health and safety guidance to the extent reasonably practicable, and escalate unresolved issues via eduSafe, which is being proactively monitored by the Department to provide support. Principals can also promote the COVID-19 Health, Safety and Wellbeing Support for Schools page.

4.1 Physical distancing

• The Australian Health Protection Principal Committee (AHPPC) has advised that a ‘venue density rule’ of no more than one person per four square metres is not appropriate or practical in classrooms or corridors, nor maintaining 1.5 metres between students during classroom activities. The Victorian Chief Health Officer has not recommended additional physical distancing measures be put in place for senior students at schools where it is not practicable to do so.

• Close attention and proactive management must be provided so staff can physically distance. Specific attention should be paid to:
  o using spaces within the school that can support physical distancing for staff, such as libraries and vacant classrooms
  o signage and rostering so that access to physical spaces and food preparation areas can be managed
  o offices being appropriately spaced
  o the careful management of movement of adults through school reception, complemented with clear signage and access to sanitiser.

4.2 Temperature checks

In order to support community awareness of the symptoms of coronavirus (COVID-19) and to help identify children displaying symptoms, all schools should undertake temperature screening of students participating in the on-site supervision program while the stay at home restrictions are in place. Further advice on these requirements is available here.

4.3 Face coverings in schools

• All school-based staff must wear face coverings at school, and when travelling to and from school.

• Teachers and education support staff are not be required to wear face coverings while teaching, but those who wish to do so, can. Teachers should wear face coverings in other areas of the school when not teaching (for example, in the staffroom, on yard duty and when providing first aid or taking temperatures), and when travelling to and from school.

• Health, wellbeing and inclusion staff are required to wear face coverings, unless an exemption applies, including the need for ‘clear enunciation or visibility of their mouth’ (for example, when undertaking a speech therapy intervention or working with individuals who are deaf or hard of hearing).

• Students who attend primary school for on-site supervision, including students in Prep to Year 6 who attend a P-12 school, will not be required to wear a face covering. Students who are aged 12 or over by Year 6 are not required to wear face coverings.

• Some students and staff are exempt from these requirements. This includes students who attend specialist schools, are over the age of 12 and are unable to wear a face covering due to the nature of their disability. This also includes students or staff who have a medical condition, such as problems with their breathing, a serious skin condition on the face, a disability or a mental health condition.

• Parents/carers will be required to wear face coverings whenever they leave the house, including for school drop off and pick up. If they are travelling in a car alone, or only with members of their household, they do not need to wear a mask.

• School staff should refer to the Department guidance for the use of personal protective equipment (PPE) in education to determine when additional PPE is required and for information on the correct and safe use of PPE.

• Schools should display information and signage at school entrances and in communal areas such as staff rooms as reminders for staff to wear face coverings when not teaching. Posters are available in the communications support pack.

• Schools should ensure that staff wear face coverings when required to as set out above.
4.4 Other health and safety measures
• Hand sanitiser should be made available at entry points to classrooms and education will be provided on hand hygiene.
• Playground equipment can be used by students. However, students should practise hand hygiene before and after use.
• Schools should consider the necessity of using shared equipment at this time. If used, strict hand hygiene should be followed before and after use. There is no requirement for books to be placed aside for a given period after use or if loaned to students.
• Students should bring their own water bottle for use at school as students should not drink directly from drinking fountains at this time. Taps may be used to refill water bottles.
• The Department’s Students Using Mobile Phones Policy remains in place. Remind staff and students to clean their phones regularly. Phones can be turned on with the COVID SAFE app activated immediately before and after school. Schools are managed environments that include records of student, staff and visitor attendance, which can support contact tracing.
• Full Health Advice is provided at Appendix 1.

4.5 Required actions for suspected cases of coronavirus (COVID-19) in staff
• Staff members who are unwell must stay home.
• Any staff member is considered a suspected case if they experience the following symptoms: fever, cough, shortness of breath, sore throat, loss of smell or taste.
• As soon as practicable after becoming aware of a suspected case in a staff member, and that the staff member has attended on a school site whilst symptomatic or 48 hours prior to the onset of symptoms, the Principal must take the following for actions:
  o direct the staff member to self-isolate, by travelling home immediately. If immediate travel home is not possible, the staff member must be directed to self-isolate at school, in a separate room where possible, while wearing a face covering and remaining at least 1.5 metres from any other person, until they can travel home.
  o advise the staff member to be tested for coronavirus (COVID-19) as soon as practicable, and to self-isolate whilst awaiting the result of that test;
  o manage the risk posed by the suspected case, including by arranging for cleaning of areas used by the staff member, and high touch areas. Please see section 12 – Cleaning or contact the VSBA Cleaning team on cleaning@education.vic.gov.au
  o inform all staff (including the Health and Safety Representative) to be vigilant about the onset of symptoms, if they become unwell they must notify their principal, get tested and self-isolate. A draft email for you to send to do this is here. Further information on consulting with your staff is available here.

Risk assessment for three or more suspected cases
If there are three or more suspected cases of staff at your school within a five-day period, contact DET by calling 1800 126 126 to report an IRIS incident alert. The school will be supported to undertake a risk assessment.

5. Child safety, reportable conduct and duty of care in remote learning environments
• The Child safety, reportable conduct and duty of care in remote learning environments fact sheet provides advice to all staff about how to support child safety in remote learning environments.
• If school staff become aware of an incident, receive a disclosure or form a reasonable belief that a child has been abused or is at risk of abuse, they must follow all normal procedures for responding to and reporting child abuse, including the Four Critical Actions for Schools.

6. Mental health and wellbeing
• The mental health and wellbeing of principals, teachers, school staff and students remains an important consideration.
• The Department continues to provide its full suite of services to support staff mental health and wellbeing. This includes services and resources aimed at addressing individual needs, as well as tools and supports to help guide staff through this time. Specific examples include:
  o for principal class employees: Proactive Wellbeing Supervision service which has been extended to include assistant principals during 2020; the Early Intervention Program for more intensive support; and all other Principal Health and Wellbeing services
  o for all staff: personalised over-the-phone and video counselling through the Employee Assistance Program
  o for all staff and all people managers: Wellbeing Webinars cover a range of relevant topics for the current situation for all staff and people managers.
• More information and the full list of supports and services can be found on the COVID-19
Health, Safety and Wellbeing Support for Schools page.

- More information on supporting students can be found at the Mental health, wellbeing and support page.
- More information on supporting parents can be found at the Managing screen time, health and wellbeing page.
- The Regional Health and Wellbeing contact role and supports for schools will remain in place for Terms 3 and 4. Department Regional staff will be available to attend schools, practising physical distancing.

7. Other school and curriculum settings

- The following settings should provide remote learning options where possible and close for face-to-face provision:
  o The Victorian School of Languages (VSL)
  o Community Language Schools (CLSs)
  o MARC/MACC services
  o Outdoor education schools and camps, and leadership schools.
- Government school staff in these settings are expected to work remotely wherever possible, or on-site where there is no other option. Where staff are not able to continue working due to health or other issues, they will need to access leave.

8. Camps, playgrounds and facilities

The following apply to all schools until further notice:

- school camps and excursions cannot take place at this time
- playgrounds should not be made available for community use
- community groups are not permitted to use school facilities (indoor or outdoor).

9. Sport and recreation

- In line with community advice, reasonable precautions are still advised to reduce the risk of coronavirus (COVID-19) transmission in the context of sport and recreation.
- Outdoor facilities are preferred for physical education and recreational play. Where indoor facilities are used, the number of students should be limited to maximise physical distancing.
- Non-contact sports should be encouraged. Hand hygiene must be practised before and after use of any sporting equipment.
- Swimming and aquatic facilities – in line with the closure of swimming pools, saunas and spas in the community, swimming pools and aquatic facilities on school grounds should close.

10. Visitors to schools, interschool activities and school tours

- Visitors to school grounds must be limited to those delivering or supporting essential school services and operations (e.g. student health and wellbeing services, cleaning and maintenance workers).
- To support contact tracing, schools must keep a record of all staff, students and visitors who attend on-site for more than 15 minutes. Schools must record the name, contact details, date, and time of attendance at school, as well as the areas of the school that the person attended. Schools can use existing mechanisms such as visitor sign-in procedures, student attendance records and staffing rosters to record this information.
- Additional staff, including parent volunteers, must not attend school at this time.
- Parent-teacher information sessions and interviews must be replaced with online and video alternatives.
- Activities that involve on-site attendance by students from different educational institutions (e.g. interschool sport or interschool debating) must not take place or be replaced, where possible, with virtual alternatives.
- Schools must not conduct on-site school tours for prospective students and their families at this time.
- Visitors to school grounds must comply with physical distancing and face covering advice set out in this document, and practise good hand hygiene.

11. Maintenance, construction and building upgrades

In metropolitan Melbourne, Stage 4 restrictions now apply. School construction and maintenance projects are affected by these restrictions. The Victorian School Building Authority has classified each of these projects in one of three ways:

1. ‘State Critical Infrastructure Projects’ and essential maintenance will be able to continue, reducing workers on site where practical to do so. This includes new schools opening next year, upgrades essential to ensuring the state can meet short-term enrolment needs, and other work critical for school safety.

2. Restricted Operations projects will be able to continue but in a reduced way, with the maximum number of workers limited in accordance with industry regulations published by BusinessVictoria.

3. Suspended projects will have to cease onsite work completely for the duration of Stage 4 restrictions.
The above restrictions do not apply to regional Victoria.

If your project is being managed by the VSBA, they will have notified your builder about how your project is classified, and the new safety measures that apply.

Off-site planning of Melbourne projects in the design stage can continue.

School-led maintenance and upgrade projects at metropolitan Melbourne schools

With the Government seeking to limit workers onsite, school-led upgrades and maintenance works (including grounds and other routine maintenance) in metropolitan Melbourne should be stopped or restricted wherever possible. Work can, and should, continue where it is critical for school safety.

If you have an ongoing school-led project currently underway at your school, please instruct your builders/contractors that on-site works are to cease immediately and remain suspended for the duration of the Stage 4 lockdown restrictions.

Where projects continue for safety reasons, contractors should have High Risk COVIDSafe Plans and compliant with all the new measures published on the BusinessVictoria website.

If the suspension of works creates any financial hardship for the builders/contractors working in your school, please direct them to Business Victoria’s advice on available support packages, or the coronavirus hotline on 13 22 15 for phone advice.

Maintenance and upgrade projects at regional schools

Construction projects across regional Victorian schools can continue, observing the Stage 3 restrictions.

Where possible during the remote and flexible learning period, regional schools should continue their regular grounds and other maintenance, including vermin and pest control.

12. Cleaning

- Extended and increased cleaning arrangements have been introduced and will continue. This involves progressive cleaning throughout the day to ensure that risks of transmission are reduced for high-touch services.
- For schools under the metropolitan area-based model, the Victorian School Building Authority (VSBA) will ensure cleaning providers provide the extended and increased cleaning.
- For regional schools and metropolitan schools that are yet to transition to the area-based model, schools should arrange extended cleaning and altered schedules with their cleaning provider. Schools will be advised of additional funding for their school to undertake this cleaning.
- For cleaning and for personal hygiene product queries, please contact cleaning@edumail.vic.gov.au
- In the event of a positive case of coronavirus (COVID-19) at your school that requires an ‘infectious clean’, the VSBA will arrange and pay for the clean. Once advised of the need to clean, the VSBA will contact the principal as soon as possible to make arrangements,
- The clean is conducted in accordance with guidelines that have been developed with the Department of Health and Human Services.
- To assist in the event of an ‘infectious clean’, it is recommended that on-site school staff:
  o keep their desks neat, tidy and file important documents before they leave each day
  o take personal belongings home each day (e.g. jackets, shoes, hats, gloves and masks)
  o do not leave open food containers out in the open (e.g. tea bags, biscuits, fruit)
  o keep personal cutlery in a sealed container and not leave it out on their workstation
  o take laptop, iPad home each day.

13. Personal hygiene products

- For the procurement of personal hygiene products (soap, toilet paper, hand sanitiser), schools should actively monitor cleaning and hygiene supplies and reorder in advance of needing access to additional materials.
- Schools should continue to use their usual supplier: the State Purchase Contract supplier for office supplies, Complete Office Supplies (COS), or retail outlets in the first instance.
- If unavailable, schools can purchase products from their cleaning providers. If supplies are unavailable, schools should contact the Department at cleaning@edumail.vic.gov.au who will connect schools with a supplier for toilet paper and soap or directly supply schools with hand sanitiser.
- See Access to cleaning supplies and services for advice on enhanced cleaning, information about personal hygiene products and Procurement tips for high demand items for advice about procurement of consumables.

14. School buses for on-site students

- In rural and regional Victoria, the School Bus Program will continue to operate as normal.
- “School specials” operated by Public Transport Victoria will continue to operate as normal.
• The Students with Disabilities Transport Program (SDTP) will continue to operate statewide for students with a disability.
• Bus operators will ensure that high-touch surfaces are regularly disinfected (handrails and seating areas).

15. School Breakfast Club Program
• The School Breakfast Club program is an essential service that should continue to be delivered during Stage 3 and 4 restrictions by participating schools.
• In addition to providing the program for students attending on-site, participating schools should consider options for distributing provisions to students and families during remote and flexible learning including:
  o packaging up supplies in small parcels for students to take home
  o packaging up supplies for collection by parents/carers from the school
  o providing ‘grab and go’ options such as fruit, fruit cups, mini milks or lunch bowls for any students who are attending school on site.
  o facilitating contactless delivery of supplies to students’ homes (such as leaving supplies at the gate/front door).
• Where collecting supplies, parents/carers should collect them at the same time as other necessary supplies and do not require a permit to do so.
• For further information and support in delivering the School Breakfast Clubs program during this time, see the School Breakfast Clubs program page.

16. Outside school hours care
Outside School Hours Care (OSHC) on school sites in metropolitan Melbourne and regional Victoria can provide access to students consistent with the access criteria for on-site supervision to school in their respective area as outlined earlier in this document.

17. Access to devices
• For students who are learning from home and do not have access to digital technologies, government schools should continue to loan existing devices and support internet access to students where possible.
• Where students are learning on-site, where necessary schools should ask that devices are brought to school each day and then allow students to take devices home each day. It is important that families understand that devices remain the school’s property and that devices support the school’s learning and teaching program. These arrangements should apply until further notice.
• Staff using laptops and other portable devices should also be encouraged to take them home at the end of the school day and over weekends.

18. Work across multiple sites
• If practical, schools should seek staff (including contractors and employees of school councils) that do not work at other schools or school sites (i.e. multiple campuses) in addition to their school or limit the number of sites they work at as far as possible.
• If a school staff member is working at more than one premises, for two or more employers:
  o the staff member must provide a written declaration using the form available here to each employer of the work they are performing and the details of the other premises that they are performing work at
  o schools must maintain a record of all staff who have disclosed that they are working at more than one site.

19. Contacts
• Schools should contact their SEIL to discuss any queries.
• Local consultation should continue with staff, Health and Safety Representatives and OHS Committees (if applicable). For further advice and support phone 1300 074 715 or email safety@edumail.vic.gov.au
• DET COVID-19 hotline: the Department’s dedicated coronavirus (COVID-19) phone advice line on 1800 338 663 can address or appropriately refer calls on all matters. This operates from 8am to 6pm seven days a week.
• Staff health and safety: Further advice and support in phone 1300 074 715 or email safety@edumail.vic.gov.au
• International students (both onshore students and offshore students engaging in remote learning): international@edumail.vic.gov.au or (03) 7022 1000
• Finance: School Financial Management Support Unit: schools.finance.support@education.vic.gov.au or (03) 7022 2222
• Cleaning: cleaning@edumail.vic.gov.au
• OSHC and other early childhood: the Department’s dedicated coronavirus (COVID-19) phone advice line during business hours on 1800 338 663. This operates from 8am to 6pm seven days a week.
• Student transport: student.transport@edumail.vic.gov.au or 7022 2247.
APPENDIX 1:

HEALTH AND SAFETY ADVICE FOR ON-SITE SCHOOLING IN THE CONTEXT OF CORONAVIRUS (COVID-19)
The purpose of this guidance is to support schools providing on-site learning to provide safe teaching and learning environments for staff and students.

An update from the Victorian Chief Health Officer

As Victoria’s Chief Health Officer, and as a member of the Australian Health Protection Principal Committee, the health, wellbeing and safety of students and staff remains front of mind.

As you know, we have seen an increase in the number of coronavirus (COVID-19) cases across Victoria, in particular in metropolitan Melbourne, with a concerning number of these having been acquired through unknown transmission.

In order to significantly reduce the movement of more than one million students and their families across metropolitan Melbourne and to help slow the spread of coronavirus (COVID-19) across Victoria, I have advised temporarily returning to a predominately remote learning model from Term 3.

For those continuing to receive on-site provision at mainstream and specialist schools, I want to reassure you that schools remain safe places for staff and students when sensible steps as outlined in this guidance are taken. I ask all Victorian school communities to protect themselves and others by following this advice.

The available data suggests that transmission in school settings is uncommon, and the risk to staff and students in both mainstream and specialist settings remains low, with health and safety measures in place.

The vast majority of cases of coronavirus (COVID-19) observed in schools involve the student or staff member acquiring the virus in the community, and these cases have been well contained through reactive and temporary closures.

With significant testing in place, I am confident in our ability to identify and respond appropriately when a student or staff member tests positive to coronavirus (COVID-19).

Reassuringly, evidence also continues to show that children are less impacted by the virus, they tend to have milder symptoms and are less likely to develop severe illness.

I once again thank teachers, staff, students and families for their incredible efforts during these challenging times, and with your support I am confident we can once again flatten the curve of the pandemic in Victoria.

Adj Clin Prof Brett Sutton
Victorian Chief Health Officer
**Actions for schools**

All schools, including specialist schools, should consider a variety of strategies to support physical distancing and good hygiene practices to reduce the risk of coronavirus (COVID-19) transmission within the practical limitations of a school environment. The following actions are to be considered, adapted and implemented as necessary according to the education setting and the individual needs of the staff, students and the wider school community.

**Attendance on-site**

The most important action school communities can take to reduce the risk of transmission of coronavirus (COVID-19), is to ensure that any unwell staff, children and young people remain at home.

While the risk of transmission of the virus in schools is low, staff or students most at risk of severe illness should continue to individually assess appropriateness for on-site attendance with support from their medical practitioner.

As the main risk of transmission of coronavirus (COVID-19) in the school environment is between adults, it is important that visitors to school grounds is controlled, and in restricted areas limited to essential school services and operations.

- All unwell staff and students must stay home.
- Schools located in areas under ‘Stay at Home’ restrictions should conduct daily temperature checks of students on arrival (Following Guidance for administering student temperature screening).
- Parents/carers of students with complex medical needs (including those with compromised immune systems), should seek advice from the student’s medical practitioner to support decision-making about whether on-site education is suitable, noting that this advice may change depending on the status of the coronavirus (COVID-19) pandemic in Victoria. This is in line with the DET Health Care Needs policy.
- In line with other members of the community, teachers and staff may be at greater risk of more serious illness if they are infected with coronavirus (COVID-19) if they are:
  - aged 70 years and over
  - aged 65 years and over and have chronic medical conditions
  - of any age and have a compromised immune system
  - Aboriginal and Torres Strait Islander and are aged over 50 with chronic medical conditions.

Such teachers and staff may be considered vulnerable and should take additional care to protect themselves and consider working from home.

Schools should control visitor access on site and record contact details for all visitors.

**Hygiene**

Everyone can protect themselves and prevent the spread of coronavirus (COVID-19) by continuing to practise effective hand hygiene measures. Enhanced hygiene measures should continue during on-site teaching and learning.

- All staff, students and visitors to schools should undertake regular hand hygiene, particularly on arrival to school, before and after eating, after blowing their nose, coughing, sneezing or using the toilet. This should be directed or supervised by staff where required.
- Where soap and water are not readily available, hand sanitiser should be accessible in every occupied room.
- It is recommended that students do not drink directly from drinking fountains at this time. Instead they should bring their own water bottle for use (and refilling) at school.
- Sharing of food should not occur.
- The Department of Education and Training Students Using Mobile Phones policy remains in place. Staff and students should be reminded to clean their phone regularly.
- Where relevant, ensure the highest hygiene practices amongst food handlers where these services are operating, as per the Department of Education and Training Safe Food Handling policy.
- From 11:59pm on Sunday 2 August, a face covering will be mandatory whenever you leave home, wherever you live in Victoria. See DHHS advice on face coverings for information and guidance on use of face masks in education settings. It is not compulsory for staff to wear face coverings while teaching or caring for children, as they can interfere with their ability to clearly communicate with children. While teaching or caring for children, Staff can choose to wear masks face coverings if they wish.
School arrival and departure
As the main risk of introducing coronavirus (COVID-19) to the school environment is from adults, close proximity between adult members of the school community should be avoided, particularly during school drop-off and pick-up.

- Schools should encourage staff and parents to observe physical distancing measures by not congregating in areas inside or around the school.
- Local school arrangements to practise physical distancing and minimise interaction within the school and at school entry points may include:
  - multiple entry and exit points or staggered drop off and pick-up times to reduce the number of adults congregating at the school gate or outside classrooms
  - signs at the school gate to encourage 1.5 metres physical distancing between adults
  - if additional space is required to support parents to physically distance at drop off and pick up, allowing parents to enter school grounds for a short period around these times.
- Encourage non-contact greetings.

Considerations for teaching and learning environments
Density restrictions of one person per 4m² in classrooms and corridors, and maintaining a physical distance of 1.5 metres between students during classroom activities will not always be practical in education settings. Physical distancing is most important between adults.

Reducing mixing between different cohorts (either classes or year levels) is recommended as a precautionary measure to minimise risk of spread of transmission and aid containment in the rare event of a confirmed case of coronavirus (COVID-19) on site.

- Promote fresh air flow indoors and maximise use of outdoor learning areas or environments with enhanced ventilation where possible and as practical depending on weather conditions.
- Mixing of staff and students between rooms should be avoided where possible.

- Local school arrangements to reduce mixing between students and staff from different classes or year levels outside of the learning environment may continue to be of use as precautionary measures and include:
  - staggering of break times and separating different classes or year levels when outdoors
  - considering the order and pace in which classrooms are vacated
  - organising student traffic in corridors and locker bays (e.g. dividing the corridor for traffic direction).

- Where multiple staff are required in a classroom, remind staff to maintain physical distancing from each other as much as practical.

Considerations for offices and staff facilities
As the greatest risk of transmission of coronavirus (COVID-19) in the school environment is between adults, close proximity between staff should be avoided where possible and especially in offices and staff rooms.

- Workstations should be spaced out as much as possible, and the number of staff in offices limited. This might mean re-locating staff to other spaces (e.g. library or unused classrooms).
- In line with other workplaces across Victoria, remind staff to maintain physical distance from each other as much as possible in the reception, staff room and offices.
Cleaning and facilities management

Environmental cleaning, coupled with regular hand hygiene, remains important to reduce the risk of coronavirus (COVID-19) transmission.

- Continued extension of routine environmental cleaning, including progressive cleaning throughout the day to ensure that risks of transmission are reduced for high-touch services. See Access to cleaning supplies and services.
- Schools should consider the necessity of using shared items or equipment at this time. Such items may include shared computers, class sets of teaching and learning materials, musical instruments etc. Hand hygiene immediately before and after use of shared equipment is recommended. Risk can be further minimised by users of high-touch shared equipment wiping items down where appropriate, for example using a disinfectant/detergent wipe or cloth.

Provision of routine care and first aid

Physical distancing is not practical when providing direct care. In this situation standard precautions, including hand hygiene, are important for infection control.

- Standard precautions are advised when coming in to contact with someone for the purpose of providing routine care and/or assistance (for example, the use of gloves for nappy-changing, toileting, feeding).
- Standard precautions as per the Department of Education and Training Infectious Disease policy and related policies should be adopted when providing first aid. For example, use gloves and apron when dealing with blood or body fluids/substances.
- Always wash hands with soap and water or use a hand sanitiser before and after performing routine care or first aid.
Management of an unwell student or staff member

It is important that any staff member or student who becomes unwell while at school gets tested and returns home. While it is unlikely that a staff member or student who is unwell with flu-like symptoms will have coronavirus (COVID-19) there are some sensible steps schools can take while a student awaits collection by a parent or carer as a precaution.

- Staff and students experiencing compatible symptoms with coronavirus (COVID-19), such as fever, cough or sore throat, should be isolated in an appropriate space with suitable supervision and students should be collected by a parent/carer as soon as possible. Urgent medical attention should be sought where indicated. It is not suitable for an unwell student to travel home unsupervised.

- Where staff or students are experiencing compatible symptoms with coronavirus (COVID-19), the important actions to follow include hand hygiene, physical distance and putting on a surgical mask (both staff and student where appropriate). See DET guidance for the use of Personal Protective Equipment in education.

- In the context of schools supporting students with complex health needs, if the care of an unwell child or young person is to be prolonged (for example, because it will take some hours for a parent to collect a child) and maintaining distance is not practical when providing supervision or direct care; surgical mask, gloves, gown and eye protection are recommended to be worn by the staff member. See DET guidance for the use of Personal Protective Equipment in education.

- Face masks should not be used in situations where an individual is unable to safely or practically tolerate a mask (for example, a child with complex medical needs including existing respiratory needs. Children who are two years or younger must not wear face coverings as they are a choking and suffocation risk).

- Health care plans, where relevant, should be updated to provide additional advice on monitoring and identification of the unwell child in the context of coronavirus (COVID-19).

- If a staff member is unsure whether a student is unwell it is advisable in the first instance to contact the parent/carer to discuss any concerns about the health status of the student, and taking a precautionary approach, request the parent/carer to collect their child if concerns remain.

- Staff or students experiencing compatible symptoms with coronavirus (COVID-19) should be encouraged to seek the advice of their healthcare professional who can advise on next steps. Where staff or students have been tested, they must isolate until they receive the test result. Staff and students are generally not required to present a medical certificate stating they are fit to return to an education setting after a period of illness, however staff and students should not return until symptoms resolve. Staff continue to be required to present a medical certificate in accordance with personal leave policy for periods of absence on personal leave.

- Follow cleaning guidance according to the situation of the case. If a student spreads droplets (for example by sneezing, coughing or vomiting), clean surfaces immediately with disinfectant wipes while wearing gloves.

Managing a suspected or confirmed case of coronavirus (COVID-19)

The Department of Education and Training has comprehensive procedures in place with the Department of Health and Human Services to manage suspected or confirmed cases of coronavirus (COVID-19) in schools.

- Contact the Department of Education and Training by calling 1800 126 126 to report an IRIS incident alert if a student or staff member is a confirmed case. You do not need to take further action, until directed to do so.

- The Department of Education and Training will notify WorkSafe on behalf of the affected school.

- WorkSafe may be in contact with the affected school to ensure the school is following the health and safety guidance outlined in this document, and has implemented their COVID-19 Safety Management Plan. Please contact the OHS Advisory Service (1300 074 715) for support in managing occupational health and safety matters.
