Subject: Please end duck shooting in Victoria
Date: Tuesday, 26 November 2019 7:19:17 PM

Dear Committee Members

I am fortunate to live in a regional area in which many beautiful bird species grace the skies and river areas. Each and every year, however, it grieves our family - and all of the people we know - to have the knowledge that many of them are under threat when the annual hunting season commences. We have a relationship with many of these birds who inhabit our dams and waterways, even to the point of aiding those orphaned and injured. Their flight paths and range are wide enough that they are under threat from the hunters and their bullets. In this time of drought it is even more unthinkable that birds have the added threat of this so called sport.

I'm pleased to see this inquiry underway and wanted to take the opportunity it presents to raise with the committee my strong opposition to duck shooting.

No inquiry into Victoria's wetlands can be complete without understanding that the decline of wetlands combined with the hunting season has brought our native duck populations to the brink.

I'm very upset and distressed that in 2019, duck shooting continues in Victoria when it has been banned in WA, NSW and Queensland, and was never permitted in the ACT.

The shooting of native birds for fun is simply not okay. Up to one quarter of birds that are shot fly away wounded, and will go on to either suffer painful deaths or survive with enduring injuries including shotgun pellets embedded in their bodies.

Across Victoria, Australia and the world, there is growing evidence that our ecosystems are in real trouble and the water bird populations are particularly susceptible to drought, climate change and other threats. These factors make it even more inappropriate for recreational killing of water birds.

On top of this, each 'season' I am confronted by video evidence showing the cruel practices of some hunters and inadequate monitoring by compliance staff.

I hope this inquiry will seriously consider an end to duck shooting in Victoria, and will also provide recommendations for Government actions to restore and protect the wetland habitats all our water birds depend on.

Thank you for the opportunity to share my thoughts.

Yours sincerely,
Sarah Elliott
