Dear Committee Members,

As a Mornington Peninsula resident I am concerned about the development in western port bay on two counts.

1. That destroying or changing the wetlands will devastingly change the survival of the animals that live there,
And
2. Creating a new project that uses fossil fuels when our planet is scientifically evidenced to be in crisis.

Australia was uniquely placed to be world leaders in climate change as well as being able to protect our economy and jobs. Instead it has backed big climate neglecting companies. After visiting Europe this year and witnessing all the innovative approaches they are undertaking, I am ashamed of my country. I implore you to consider well your choices in the matter of western port bay.
Thank you.
Belinda Mullen
