### **YOUR SUBMISSION**

#### **Submission:**

As a bird photographer and doctor I feel strongly about the disgraceful law in Victoria which allows our magnificent waterbirds to be used as living targets. Surely we are better than that? To have a very small percentage of the population sway political action in this way is beyond belief. This vile hooliganism puts local residents in danger and affects bird tourism adversely. When at the crossroads of accelerating climate change our birds are already in peril but especially waterbirds.

I ask the honourable members deliberating this issue to please bring Victoria into the twenty first century and ban this relic of past times.
