Subject: Parliamentary Inquiry into Motorcycle Safety

Submission No. #22.  
Received  
Road Safety Committee

*Dear Road Safety Committee,*

*My name is Cameron Rowley, being relatively new to motorcycling I am already aware of the dangers and risks related to riding. I believe these can be reduced.*

*My submission is brief and I will attempt to address some of the terms of reference in a few lines/paragraphs.*

*I believe motorcycle safety can be improved by the legitimisation of stationary lane filtering. Not only will this free up some congestion on busy roads (particularly during peak hours) but I believe it is a very safe environment for riding with minimal risks. Potentially it could be a technique that only fully licensed riders are allowed to apply, such as with towing on a motorcycle and carrying pillion passengers.*

*Thanks for taking the time to read my submission.*

*Sincerely,  
Cameron Rowley*
