As a complementary health practitioner with a Bachelor of Health Science - Naturopathy, I totally disagree with this proposal to force parents to vaccinate their healthy children with toxic chemicals that have been proven in scientific studies to cause auto immune diseases. I disagree with pharmaceutical companies pushing vaccinations onto medical doctor's without doctor's being fully informed about the side effects of vaccinations, and the fact that GP's are paid a fee for each vaccination. Freedom of choice is one of the reasons we choose to live in Australia. Do not take away freedom of health choice in Australia.

Kerri Nichols
