Subject: Proposed No Jab No play legislation

Dear Ms Lizzie Blandthorn MP,

Chair, Scrutiny of Acts and Regulations Committee,

I am writing to express my concern over the No jab No play proposed legislation.

I would like to say that I'm not anti-vaccination however I am strongly pro-choice. Parental choice is an important human right.

I feel that with any medical intervention these decisions need to be made by informed parents in consultation with health care practitioners. Many factors need to be taken into consideration when vaccinating especially infants. Factors such as current state of health, infection, fever, family history, allergies, prior reactions to vaccines.

I feel that unless vaccinations are completely safe and effective it is highly unethical to impose policies that force parents into vaccinating to allow children to attend child care or receive government payments.

Thankyou for taking the time to read this letter.

Regards,

Geraldine Hall
