RE- Please find my submission to the Public Health and Wellbeing Amendment (No Jab, No Play) Bill 2015

To Ms Lizzie Blandthorn MP,

I refer to the proposed law No jab, No play policy. Penalising parents who make an evidence based choice not to vaccinate they're children. I don't believe parents who don't vaccinate should be penalised by not allowing to send their children to child care and kinder.

I have a 3 year old who has never been vaccinated and even if the proposed law does come into effect I still won't vaccinate him. It would just mean you will make life more difficult for us as I would have to quit working after having just returning back to work recently. It means I will have to go on Centrelink benefits, it means you will be isolating my child from interacting and enjoying the company of other children.

It's MY choice as a parent to make that decision, not the government trying to bully us into making that decision ie if you don't vaccinate you get penalised, no child care, no kinder, Centrelink payments cut. How is this even fair, living in a country like Australia, you're taking our freedom of choice away!

I highly disagree with this ridiculous law getting passed as it won't change the minds of people who don't vaccinate, we won't be bullied into doing something that we feel very strong and passionately about.

Yours Sincerely

Mujde Selek
