Dear Mr O'Donohue,

I wish to submit my suggestion for the Review that certain Rights have been omitted.

Section 44(2) of the Act:
1. The Right of the unborn child to life
2. The Right of a baby born alive after failed abortion to receive medical assistance to remain alive.
3. The Right of women to be fully informed of the medical risks of abortion and
4. The Right of freedom of conscience of doctors to not be forced to refer for abortion.

I would think that the first two should come under the U.N Convention of the Rights of the Child.

Please give these your earnest consideration.
