The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author details the various methods used to collect and analyze the data. This includes both manual and automated processes. The goal is to ensure that the information gathered is both reliable and comprehensive.

The third part of the document focuses on the results of the analysis. It shows that there is a clear trend in the data, which suggests that the current strategy is effective. However, there are some areas where improvement is needed, particularly in terms of efficiency and cost reduction.

Finally, the document concludes with a series of recommendations for future work. These include implementing new software tools, training staff on best practices, and conducting regular audits to ensure ongoing accuracy and compliance.

The following table provides a summary of the key findings from the analysis. It shows the percentage change in various metrics over the specified period.

The data indicates a significant increase in revenue, while expenses have remained relatively stable. This suggests that the company is becoming more profitable over time.

The overall conclusion is that the current operational model is sound, but there is still room for optimization. By following the recommendations, the company can achieve its long-term goals.

2. MR. TUNNECLIFFE: To ask the Honorable the Minister of Railways what steps he intends to take for the construction of a railway from Elmore to Cohuna.

4. MR. PRENDERGAST: To ask the Honorable the Premier if he will inform the House—
 1. If he has seen the following statement in the *Herald* evening newspaper in an article which sums up the work of the Commerce Act in its action in excluding adulterated, or perished, or misdescribed articles:—"Although the Federal officials are very strict in carrying out the law, it does not follow that the public is wholly guarded against frauds of the descriptions referred to. Many of the States fail to second the efforts of the Commonwealth, and there are cases on record where the vendors of some articles have re-labelled them with their extravagant statements after they have got them inside Australia and beyond Federal supervision."
 2. If this State be referred to as one of "Many of the States," will he take steps to see that unscrupulous vendors of articles are not allowed to mislead the public with untrue labels.

Questions.

1. MR. LANGDON : To ask the Honorable the Minister of Water Supply—
 1. If he is aware that the old reservoir originally constructed by the Government for the conservation of water for the supply of the town of Charlton is now silted up and out of repair, and therefore useless for the purpose for which it was constructed.
 2. That, in order to obtain an efficient pure water supply for that town, the local water supply trust has been compelled to incur heavy liabilities for the purpose of constructing new works, so as to conserve the necessary quantity of water required for the town.
 3. That, in order to raise sufficient money to pay interest on the amount now debited against the trust, viz., the cost of the original work and the loan raised for the new works now in course of construction, a rate of 4s. in the £1 will have to be struck, which will be a heavy tax on the ratepayers.
 4. If, with a view to some relief being accorded to the ratepayers of Charlton, he will instruct the State Rivers and Water Supply Commission to cause an inspection of the old works to be made by an efficient officer, in order that their present value may be ascertained on a reliable basis.
2. MR. SMITH : To ask the Honorable the Minister of Railways if he will inform the House if there are any other crossings on the Victorian Railways with no greater margin of safety than the one at which the collision between the Agricultural Show and Coburg trains happened ; if so, how many, and where they are located.
3. MR. LANGDON : To ask the Honorable the Commissioner of Crown Lands and Survey when the return ordered by this House on the 29th August last relating to the total area of land purchased by the several Closer Settlement and Lands Purchase Boards, its cost to the State, the number of acres now occupied and unoccupied, &c., will be furnished to the House.
4. MR. TOUTCHER : To ask the Honorable the Treasurer if he will make the necessary arrangements with the Railways Commissioners for providing free carriage of lime on our railways, so as to increase our agricultural products, and thus bring additional revenue to our railways, and also add to our national wealth.

Questions.

1. MR. BAIRD: To ask the Honorable the Chief Secretary if he will inform the House when the Determination of the Clerks Wages Board will be gazetted.
2. MR. TOUTCHER: To ask the Honorable the Premier if he will recommend the Executive Council to reconsider the nature of the punishment ordered to be inflicted on the prisoners Moore and McDonald, with a view of preventing the flogging of men condemned to imprisonment for life and the infliction of a form of punishment regarded by many as debasing, brutalising, and degrading.
3. MR. MCGRATH: To ask the Honorable the Premier if his attention has been directed to the following paragraph in the *Age* newspaper of the 29th October instant, and if he can inform the House whether the statements are correct or not:—"At the meeting of the Engine-drivers' and Firemen's Association on Saturday evening indignation was expressed at the action of the Board of Examiners for Engine-drivers in granting to a recent arrival, who was employed by the electric light company at Ballarat, a first class factory engine-driver's certificate of competency without his having first held a second class certificate for twelve months, as provided for in the regulations governing the issuing of the certificates. The testimonial presented by the recipient and the certificate did not, it was said, state that he had done any work in attending to steam boilers, as required by the regulations. The company had, it was further stated, brought out two men from England, and the effect of one of them having obtained the certificate had been the displacement of a man who had been in its employ since 1905. The company had given the latter a reference stating that it was well satisfied with the services he had rendered, and recommended him as a reliable, steady, and capable driver. The meeting decided to bring the case under the notice of the Minister of Labour and the Labour Members of the State House."

Questions.

1. **MR. MCGRATH** : To ask the Honorable the Premier if his attention has been directed to the following paragraph in the *Age* newspaper of the 29th October last, and if he can inform the House whether the statements are correct or not :—“ At the meeting of the Engine-drivers' and Firemen's Association on Saturday evening indignation was expressed at the action of the Board of Examiners for Engine-drivers in granting to a recent arrival, who was employed by the electric light company at Ballarat, a first class factory engine-driver's certificate of competency without his having first held a second class certificate for twelve months, as provided for in the regulations governing the issuing of the certificates. The testimonial presented by the recipient and the certificate did not, it was said, state that he had done any work in attending to steam boilers, as required by the regulations. The company had, it was further stated, brought out two men from England, and the effect of one of them having obtained the certificate had been the displacement of a man who had been in its employ since 1905. The company had given the latter a reference stating that it was well satisfied with the services he had rendered, and recommended him as a reliable, steady, and capable driver. The meeting decided to bring the case under the notice of the Minister of Labour and the Labour Members of the State House.”
2. **MR. ROBERTSON** : To ask the Honorable the Commissioner of Crown Lands and Survey—
 1. If the Special Committee of Inquiry on Irrigated Settlements has completed its work ; if so, will he furnish the House with the report of its work and recommendations.
 2. Will he inform the House if there will be an inquiry and report on Cohuna and Swan Hill settlements.

Notices of Motion and Orders of the Day.

No. 54.

TUESDAY, 12TH NOVEMBER, 1912.

Questions.

1. MR. SWINBURNE : To ask the Honorable the Chief Secretary if he is aware—
 1. That at the Kew Hospital for the Insane eleven nurses are compelled to sleep in one dormitory, without any individual privacy whatever, and that access to this room can only be gained by passing through a dormitory where many patients sleep.
 2. That eight other nurses are quartered in the tower, a most inconvenient and undesirable place, although all these nurses have £12 per annum deducted from their salaries for lodging only.
 3. If it is the intention of the Government to at once proceed with the erection of nurses' quarters, the money for which was provided in last year's Estimates.
2. MR. SWINBURNE : To ask the Honorable the Chief Secretary—
 1. If his attention has been drawn to the following paragraph in the Australian letter contributed by a Melbourne minister of religion to the *Christian World* of the 8th August last relating to the increase of crime in Victoria:—"Another problem is with us—that of the increase of crime, particularly of the crime of theft. The police affect to make light of it; they speak contemptuously of 'newspaper shrieking.' But the truth is that robberies are becoming alarming, both for their number and their character. Day after day we read of house-breakings and burglaries, of householders being awakened in the dead of night to find themselves looking down the barrel of a revolver. In nearly every case the robbers escape. The police force is entirely inadequate to deal with the situation. A number of citizens are now sleeping with loaded revolvers under their pillows. Robberies from churches are becoming common. From our own vestry alone five coats have been stolen within a few months, three of them at one time. They were taken while the service was proceeding, and when the door was locked. These affairs are involved in mystery. One probable reason for the increase of thefts is the fact that crime is so leniently treated both by the public and the judges. The friendly 'cat' no longer purrs along the backs of robbers. The term of imprisonment is light, and the public themselves, although they loudly complain, yet act with strange slowness. One citizen had his overcoat stolen from a public building. A few days afterwards he encountered a man in the crowded street wearing his property. 'That's my coat,' said the citizen. Whereupon the thief quietly removed the garment, handed it to its possessor, and leisurely walked away. And he was allowed to go without protest! Little wonder that men become brazen in their robberies."
 2. If he is aware that these statements have been seriously commented upon, and will he state if the facts are correct; if so, what action is the Government taking to restore the confidence of the community in the administration of the Police Department.

No. 61.

FRIDAY, 22ND NOVEMBER, 1912.

Questions.

1. MR. HANNAH : To ask the Honorable the Minister of Labour—

1. If, in view of the promise made in February, 1911, that a Wages Board would be created for employes in connexion with forest saw-mills, he will explain why the Board which has been constituted should exclude from its gazetted Determination upwards of 1,000 employes connected with the saw-milling industry.
2. If he will also explain the source and nature of the "strenuous opposition" which the letter of the 4th October, 1912, to the Saw-mill Employes' Association assigned as his reason for being unable to empower the present Board to fix a rate and working condition for them.

*2. MR. SWINBURNE: To ask the Honorable the Premier if he will use all the influence of the Government with the Melbourne Harbor Trust to immediately undertake the construction of an electric tramway from Spencer-street to Victoria Dock to meet the most urgent necessities of the tens of thousands of passengers, including large numbers of women and children, who come out as emigrants for Victoria and passing through, to New South Wales, besides those engaged in shipping, and who are compelled in all kinds of weather to walk to and from the city at great inconvenience and loss of time, which immensely depreciates Melbourne in the opinion of every one as a well-equipped port.
