PARLIAMENTARY STANDING COMMITTEE ON RAILWAYS—at half-past ten o'clock.

### PARLIAMENTARY PAPERS ISSUED 23RD JUNE, 1897.

Notices of Motion and Orders of the Day. No. 1.

Notices of Motion and Orders of the Day. No. 1.

Commonwealth of Australia Draft Bill—Amendment to be proposed by Mr. Kirton. (To Members only.)

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

Furthermore, it is noted that the records should be kept in a secure and accessible format. Regular backups are recommended to prevent data loss in the event of a system failure or disaster. The document also mentions the need for periodic audits to ensure the integrity and accuracy of the information stored.

In addition, the text highlights the role of technology in streamlining record-keeping processes. Modern accounting software can automate many tasks, reducing the risk of human error and saving valuable time. However, it is stressed that users must be properly trained to utilize these tools effectively.

Finally, the document concludes by stating that good record-keeping practices are essential for the long-term success of any business. They provide a clear picture of financial performance and help in making informed decisions based on accurate data.

---

The second section of the document focuses on the specific requirements for record retention. It outlines the minimum periods for which various types of records must be kept, as mandated by local, state, and federal regulations.

For example, it specifies that tax-related records should be retained for a minimum of seven years. Similarly, financial statements and contracts may have different retention requirements. The document provides a detailed table to help users understand these obligations.

---

The third part of the document discusses the importance of data security. It outlines best practices for protecting sensitive information from unauthorized access, theft, or loss. This includes the use of strong passwords, encryption, and secure storage solutions.

Additionally, it mentions the need for a disaster recovery plan to ensure that records can be restored in the event of a catastrophic event. Regular testing of this plan is also recommended to ensure its effectiveness.

  2. Has his name been removed from the list of successful candidates; and, if so, for what reason.
2. **MR. McCAY :** To ask the Honorable the Minister of Railways—
  1. Is it a fact that women in charge and porters' wives who receive an allowance of not more than 2s. per day for attending gates are not to be allowed time off for the Jubilee holidays (22nd and 26th June), but are to receive one and a half days' additional pay instead.
  2. Will the Honorable the Minister arrange to allow these women one and a half days' time off if they prefer it to receiving the extra remuneration.
3. **MR. LONGMORE :** To ask the Honorable the Attorney-General whether he will bring in a short Bill to indemnify shire councils who will be unable, through adverse circumstances, to balance the municipal accounts on the 30th September next as required by law.
4. **MR. STAUGHTON :** To ask the Honorable the Chief Secretary—
  1. How many public holidays (exclusive of Jubilee days) were there for the year ending 30th June last under section 135 of the Public Service Act.
  2. Are artisans in lunatic asylums entitled to all such days, or days in lieu thereof? If so, how is it that only seven such holidays were granted to them? If not, to what particular days are they entitled.
5. **MR. GRAVES :** To ask the Honorable the Minister of Agriculture if his attention has been called to the statement in the *Age* newspaper that the Victorian leaf tobacco grown on the King River and exported for sale in London was equal to American as by the report cabled to New York on the subject, and if this good news has been confirmed to him officially.

  4. Will the Government take an early opportunity of granting the promotions recommended by the Department.
13. MR. BROMLEY : To ask the Honorable the Acting Premier if the Government will recommend for classification those now in the Non-clerical Division of the Public Service who have from twelve to twenty-five years' service, and are performing responsible and purely clerical duties.

Questions :

1. MR. MALONEY : To ask the Honorable the Chief Secretary what is the shortest time of residence necessary to qualify for the Parliamentary franchise on the Ratepaying Roll of the City of Melbourne.
2. MR. R. MURRAY SMITH : To ask the Right Honorable the Premier, seeing that the *Public Service Act* 1890 requires only, with reference to long service increments, a recommendation from the permanent head of the Department and the certificate of the Public Service Board, whether these increments will not now be paid to the officers legally entitled to them under provisions made in the Second Schedule of the *Public Service Act* 1890.
3. MR. MALONEY : To ask the Honorable the Minister of Railways if he will give all candidates for Parliament a free pass for the district each candidate wishes to contest.
4. MR. GRAY : To ask the Honorable the Commissioner of Public Works if he has any objection to state—
  1. The number of reports received from each Inspector of Municipal Accounts for year ending 30th June, 1897.
  2. The time occupied on each report and the expense incurred in connexion therewith.
  3. The total cost of each Inspector since appointment, including salary, railway fare, and other expenses to 30th June.
5. MR. MCBRIDE : To ask the Honorable the Minister of Railways if he will inform the House of the result of his conference with the Right Honorable the Premier—in reference to the extension of the distance for which miners' tickets are issued.

6. MR. LANGDON: To ask the Honorable the Commissioner of Crown Lands and Survey—

1. Is it a fact that 700 applications have been made for the 120 allotments of Mallee land lately resumed by the Government from Messrs. Kersall and Adams.
2. If so, has he ascertained whether the applicants for this land are of an eligible character to settle in the Mallee country; and, if so, what action, if any, does he intend taking to secure the settlement of the balance of these people on the lands of the colony.
3. Does he not consider, in the interest of the people, a more *bond fide* settlement of the Mallee country will take place under the above system than by granting permission to private individuals to subdivide and dispose of Crown lands as now allowed.

7. MR. T. SMITH: To ask the Right Honorable the Premier will the Government pay the long-service increments to the officers in the service who have been recommended to receive them, in accordance with the provisions of the Public Service Act, by the heads of the Department and the Public Service Board.
