

# ELECTORAL RETURNS.

RETURN to an Order of the *Legislative Assembly*,  
Dated 14th August 1877, for—

**A RETURN showing—**

- (1.) The population in each electorate of the colony at the late general election.
- (2.) The number of male residents in each electorate over 21 years of age.
- (3.) The number of electors on the ratepayers and general rolls respectively in every division of every electorate.
- (4.) The number of electors in every division of every electorate who voted, distinguishing the ratepayers from the general voters.
- (5.) The number of votes received by each candidate in each electorate in each electoral division.

(*Mr. R. Clark, Sandhurst.*)

Ordered by the *Legislative Assembly* to be printed, 11th October 1877.

| Total electors who voted and total votes polled by each candidate ...) | 24,500  | 9,500  | 3,622                         | 571             | 4,193  | ...                        | ...             | 1,952  | 1,367   | 1,144              | 786 |

\* The discrepancy between these numbers and the total electors who voted is probably due to some votes having been set aside, though not reported by the Returning Officer.  
† This information was not furnished by the Returning Officer.

NOTE.—The figures in the first two columns of this Return were supplied by the Government Statist with the following explanatory memo.—“The figures in this table have been derived from estimates, in the preparation of which all available information bearing upon the subject has been made use of. It is necessary, however, to point out that, in consequence of the period which has elapsed since the taking of a census, any estimate which can be formed of the population of particular districts, and especially of the ages of the members of such populations, may possibly be wide of the mark.—(Signed) H. H. HAYTER, Government Statist. 24th August 1877.”
